PART 1: SECURITIES LAW (70 MARKS) UNIT 1: SECURITIES CONTRACT REGULATION ACT 1956

SECURITIES CONTRACTS (REGULATION) ACT, 1956

The Securities Contracts (Regulation) Act, 1956 was enacted by Parliament to:

- (i) Prevent undesirable transactions in securities by regulating the business of dealing therein, and
- (ii) Provide for certain other matters connected therewith.

The Act extends to the whole of India and came into force on 28th February, 1957. However, the provisions of this Act shall not apply to:

- (i) The Government, the Reserve Bank of India, any local authority or any corporation set up by a special law;
- (ii) Any convertible bond or share warrant or any option or right in relation thereto.

IMPORTANT DEFINITIONS

Securities:

Securities include:

- (i) Shares, Scrips, stocks, bonds, debentures, debenture stock or other marketable securities of a like nature in or of any incorporated company or body corporate.
- (ii) Derivative and Security Receipt.
- (iii) Units or any other instrument issued by any collective investment scheme.
- (iv) Units or any such instrument issued to investors under any mutual fund scheme.
- (v) Government securities.
- (vi) Such other instruments as may be declared by Central Government to be securities.
- (vii) Rights or interest in securities.

> Spot Delivery Contracts:

A spot delivery contract means a contract which provides for:

- (i) Actual delivery of securities and the payment of a price therefore either on the same day as the date of the contract or on the next day, the actual period taken for the dispatch of the securities or the remittance of money therefore through the post being excluding from the computation of the period aforesaid if the parties to the contract do not reside in the same town or locality;
- (ii) Transfer of the securities by depository from account of beneficial owner to account of another beneficial owner when such securities are dealt with by a depository.

Contract:

Contract means a contract for or relating to the purchase or sale of securities.

> Stock Exchange:

Stock Exchange means:

- (i) Anybody of individuals, whether incorporated or not, constituted before corporatization and demutualization under Sections 4A and 4B, or
- (ii) A body corporate incorporated under the Companies Act, 2013 whether under a scheme of corporatization or otherwise, for the purpose of

assisting, regulating or controlling the business of buying, selling or dealing in securities.

> Clearing Corporation:

A recognized stock exchange has the power, with the prior approval of SEBI, to transfer the duties and functions of a clearing house to a clearing corporation for the purpose of:

- (i) The periodical settlement of contracts and differences thereunder;
- (ii) The delivery of, and payment for, securities;
- (iii) Any other matter incidental to, or connected with, such transfer.

Every clearing corporation shall make bye – laws and submit the same to the SEBI for its approval. SEBI may, on being satisfied that it is in the interest of the trade and also in the public interest to transfer the duties and functions of a clearing house to a clearing corporation, grant approval to the bye – laws submitted to it and approve transfer of the duties and functions of a clearing house to a clearing corporation.

RECOGNIZED STOCK EXCHANGES

Any stock exchange which is desirous of being recognized for the purposes of this Act may make an application in the prescribed manner to the Central Government.

Every application shall contain such particulars as may be prescribed, and also a copy of the rules relating in general to the constitution of the stock exchange and in particular to:

- (i) The governing body of such stock exchange, its institution and powers of management and the manner of transacting the business.
- (ii) The powers and duties of the office bearers of the stock exchange.
- (iii) The admission into the stock exchange of various classes of members, the qualifications and other related matters.
- (iv) The procedure for the registration of partnerships as members of the stock exchanges.

If the Central Government is satisfied (power can also be exercised by SEBI) after making such inquiry as may be necessary in this behalf and after obtaining such further information, if any, as it may require:

- (a) That the rules and bye laws of a stock exchange applying for registration are in conformity with such conditions as may be prescribed with a view to ensure fair dealing and to protect investors;
- (b) That the stock exchange is willing to comply with any other conditions (including conditions as to the number of members) which the Central Government after consultation with the governing body of the stock exchange and having regard to the area served by the stock exchange and its standing and the nature of the securities dealt with by it, may impose for the purpose of carrying out the objects of this act; and
- (c) That it would be in the interest of the trade and also in the public interest to grant recognition to the stock exchange;

The conditions which the Central Government can prescribe for the grant of recognition to the stock exchanges may include, among other matters,

conditions relating to:

- (i) The qualifications for membership of stock exchange;
- (ii) The manner in which contracts shall be entered into and enforced as between members;
- (iii) The representation of the Central Government on each of the stock exchanges by such number of persons not exceeding three as the Central Government may nominate in this behalf;
- (iv) The maintenance of account of members and their audit by CA whenever such audit is required by CG.

Every Grant of recognition of a stock exchange under this section shall be published in the Gazette of India and also in the Official Gazette of the State in which the principal office of stock exchange is situated, and such recognition shall have effect as from the date of its publication in the Gazette of India.

No Application for the grant of recognition shall be refused except after giving an opportunity to the stock exchange concerned to be heard in this matter; and the reasons for such refusal shall be communicated to the stock exchange in writing.

DEMUTUALIS ATION OF STOCK EXCHANGES

The process of demutualization is to convert the traditional "not for – profit" stock exchanges into a "for profit" company and this process is to transform the legal structure from a mutual form to a business corporation form.

The Important Features of the Demutualization exercise are as follows:

- (a) The board of a stock exchange should consist of 75% public interest/shareholders directors and only 25% broker directors, and
- (b) 51% shareholding of the stock exchange should be divested to public/investors other than trading member brokers and only 49% of shareholding can remain with the trading member brokers. This will transform our broker owned stock exchanges into professionally run corporate stock exchanges.

Options for Divestment/Dilution of Broker's Shareholding in a Stock Exchange are:

- (a) Offer for sale
- (b) Private placement of shares
- (c) Fresh issue of shares to the public through an IPO.

Purpose of Demutualization:

- (a) Stock exchanges owned by members tend to work towards the interest of members alone, which could on occasion be detrimental to rights of other stakeholders. Division of ownership between members and outsiders can lead to a balanced approach, remove conflicts of interest, create greater management accountability.
- (b) Publicity owned stock exchanges can enter into capital market for expansion of business.
- (c) Publicity owned stock exchange would be more professionally managed than broker owned.
- (d) Demutualization enhances the flexibility of management.

- (f) shareholding of the company held by the public has come below the minimum level applicable to the company as per the listing agreement under the Act and the company has failed to raise public holding to the required level within the time specified by the recognized stock exchange.

RIGHT OF APPEAL TO SAT AGAINST REFUSAL TO LIST SECURITIES OF PUBLIC COMPANIES BY STOCK EXCHANGES Where a recognised stock exchange, acting in pursuance of any power given to it by its bye-laws, refuses to list the securities of any company, the company shall be entitled to be furnished with reasons for such refusal, and may, –

- (a) within fifteen days from the date on which the reasons for such refusal are furnished to it, or
- (b) where the stock exchange has omitted or failed to dispose of, within the time specified in sub-section (1A) of section 40 of the Companies Act, 2013, the application for permission for the shares or debentures to be dealt with on the stock exchange, within fifteen days from the date of expiry of the specified time or within such further period, not exceeding one month, as the Securities Appellate Tribunal may, on sufficient cause being shown, allow

appeal to the Securities Appellate Tribunal having jurisdiction in the matter against such refusal, omission or failure, as the case may be, and thereupon the Securities Appellate Tribunal may, after giving the stock exchange, an opportunity of being heard, –

- (i) vary or set aside the decision of the stock exchange; or
- (ii) where the stock exchange has omitted or failed to dispose of the application within the specified time, grant or refuse the permission, and where the Securities

Appellate Tribunal sets aside the decision of the recognised stock exchange or grants the permission, the stock exchange shall act in conformity with the orders of the Securities Appellate Tribunal.

Every appeal shall be in such form and be accompanied by such fee as may be prescribed. The Securities Appellate Tribunal shall send a copy of every order made by it to SEBI and parties to the appeal. The appeal filed before the Securities Appellate Tribunal shall be dealt with by it as expeditiously as possible and endeavour shall be made by it to dispose off the appeal finally within six months from the date of receipt of the appeal.

MINIMUM OFFER & ALLOTMENT AS PER SCRA

Rule 19(2)(b)

The minimum offer and allotment to public in terms of an offer document shall be-

- (i) at least twenty five per cent of each class or kind of equity shares or debenture convertible into equity shares issued by the company, if the post issue capital of the company calculated at offer price is less than or equal to one thousand six hundred crore rupees;
- (ii) at least such percentage of each class or kind of equity shares or debentures convertible into equity shares issued by the company equivalent to the value of four hundred crore rupees, if the post issue capital of the company calculated at offer price is more than one thousand six hundred crore rupees but less than or equal to four thousand crore rupees;
- (iii) at least ten percent of each class or kind of equity shares or debentures convertible into equity shares issued by the company, if the post issue capital of the company calculated at offer price is above four thousand crore rupees.

However, the company referred to in sub-clause (ii) or sub-clause (iii), shall increase its public shareholding to at least twenty five per cent within a period of three years from the date of listing of the securities, in the manner specified by the SEBI.

CONTINUOUS LISTING REQUIREMEN T

Rule 19A (1) stipulates that every listed company other than public sector company shall maintain public shareholding of at least 25%. However, any listed company which has public shareholding below 25%, shall increase its public shareholding to at least twenty five per cent, within a period of four years from the date of commencement of amendment to the said rules in 2014, in the manner specified by the SEBI.

Explanation: For the purposes of this sub-rule, a company whose securities has been listed pursuant to an offer and allotment made to public in terms of clause (b) of sub-rule (2) of rule 19, shall maintain minimum 25% public shareholding from the date on which the public shareholding in the company reaches the level of 25% in terms of said sub-clause.

Sub-rule (2) provides that where the public shareholding in a listed company falls below 25 % at any time, such company shall bring the public shareholding to 25% within a maximum period of twelve months from the date of such fall in the manner specified by the SEBI.

Where the public shareholding in a listed company falls below 25% in consequence to SCRR (Amendment) Rules, 2015, such company shall increase its shareholding to atleast 25%, in the manner specified by the SEBI within a period of three years, as the case may be, from the date of notification of:

- (a) the Depository Receipts Scheme, 2014, in cases where the public shareholding falls below 25% as a result of such Scheme;
- (b) the SEBI (Share Based Employee Benefits) Regulations, 2014, in cases where the public shareholding falls below 25%, as a result of such regulations.

UNIT 3: DEPOSITORIES ACT, 1996 In order to provide a safe and efficient system of trading and settlement INTRODUCTION problems and in order to provide the regulatory framework for the depositories, the Depositories Act, 1996 was enacted. There are two depositories functioning in India i. e. National Securities Depository Limited (NSDL) and Central Depository Services (India) Limited (CDSL). A depository is like a Central Bank where the securities of a shareholder are held in the electronic form at the request of the shareholders. As per Depositories Act, 1996, "Depository means a company formed and registered under the Companies Act, 2013 and which has been granted a certificate of registration under Section 12(1A) of the Securities and Exchange Board of India Act, 1992". It is an organization which is responsible to maintain investor's securities in the electronic form is called the depository. In India, there are two such organizations viz. NSDL and CDSL. The depository concept is similar to the Banking system with the exception that banks handle funds whereas a depository handles securities of the investors. An investor wishing to utilize the services offered by a depository has to open an account with the depository through a Depository Participant. In short, a depository can be treated as a "Bank" for securities. DIFFERENCE Depository Custodian **BETWEEN Function** It is responsible for It is responsible for **DEPOSITORY AND** keeping" of securities but also "safe keeping" of CUSTODIAN transfers beneficial ownership to securities but does not the real owner. transfer beneficial ownership to the real owner. Act There is a separate Act i. e. There is no separate Act Depositories Act, 1996, apart and it is regulated by from SEBI (Depositories and SEBI (Custodian Participant) Reg., 1996 Securities) Reg., 1996 It is like the banking system. A depository holds securities in accounts **DEPOSITORY** for its clients and transfers securities from one account to another. SYSTEM VS. BANKING Earlier, the investors were using the share certificate which has many risks like risk of losing share certificate and risk of bad deliveries. In depository system, above risks have been phased out and it is as safe like your bank account. **BENEFITS OF** (a) Elimination of **bad deliveries**. **DEPOSITORY** (b) Elimination of **all risks** associated with the physical certificates. SYSTEM (c) It facilitates the **immediate transfer** and registration of the securities. (d) It facilitates faster disbursement of non - cash corporate benefits like rights, bonus, etc.

(e) It **reduces the brokerage** for trading in dematerialized securities.

- (f) Elimination of **paper work** and recording of transactions like transfer of shares.
- (g) Elimination of problems related to **change** of the address of investor, transmission, etc.
- (h) Elimination of problems related to selling securities on behalf of **minor**.

MODELS OF DEPOSITORY

Dematerialization: It is a process of conversion of physical share certificate into electronic form. So, when a shareholder uses the dematerialization facility, a company takes back the shares, through depository system and equal number of shares is credited in his De – mat account in electronic form.

The investors can dematerialize only those shares certificate that are already registered in their name and belong to the list of securities admitted for dematerialized at the depositories. This method is cost effective and simple and has been adopted in India.

An Investor will have to first open an account with a Depository Participant and then request for Dematerialization of his share certificate through the Depository Participant so that the dematerialized holdings can be credited into that account. This is very similar to opening a bank account.

Dematerialization of shares is optional and an investor can still hold shares in physical form. However, he/ she has to Demat the shares if he/she wishes to sell the same through stock exchanges. Similarly, if an Investor purchases shares from stock exchange, he/she will get the delivery of shares in Demat form.

Immobilization: Where physical share certificates are kept in vaults with the depository for safe custody. All subsequent transactions in these securities take place in book entry form. The actual owner has the right to withdraw his physical securities as and when desired. The immobilization of fresh issue may be achieved by issuing a jumbo certificate representing the entire issue in the name of depository, as nominee of the beneficial owners.

DEPOSITORY PARTICIPANT

- A Depository Participant (DP) is the **representative** of the investor in the depository system providing link between the Company and investors through depositories.
- An investor opens its Demat Account with a Depository Participants for keeping its securities in electronic form.
- As per SEBI regulations, DP could be organizations involved in the business of providing financial services like banks, brokers, custodians and financial institutions.
- In short, it is a market intermediary through whom the depository services can be availed by the investors is called a Depository Participant (DP).

<u>Functions of the Depository Participant in connection with Dematerialization:</u>

(a) Acts as the agent of Depository; (b) Customer interface of Depository; (c) Account Opening; (d) Facilitates dematerialization: (e) Instant transfer on payout; (f) Credits to investor on IPO, rights and bonus; (g) Settles trades in the electronic segment. Functions of the Registrar/Issuer in connection with Demat Account: (a) Dematerialization; (b) Confirmation of Beneficiary Holdings; (c) Corporate actions – Rights, Bonus, etc.; (d) Reconciliation of Depository Holdings; (e) Dematerialization **LEGAL** The Depository business in India is regulated by: **FRAMEWORK** (i) The Depositories Act, 1996 (ii) SEBI (Depositories and Participants) Regulations, 1996 (iii) By Laws of Depositories (iv) Business Rules of Depository Apart from the above, Depositories are also governed by certain provisions of: (i) Companies Act, 2013 (ii) Income Tax Act, 1961 (iii) SEBI Act, 1992 (iv) Securities Contract Regulations Act, 1956 THE **Objectives: DEPOSITORIES** (a) It acts as a legal basis for establishment of depositories; (b) Dematerialization of securities in the depositories mode becomes ACT, 1996 possible: (c) Making the securities fungible; (d) Making the shares, debentures and any interest thereon of a public limited company freely transferable: (e) Exempting all transfers of shares from the stamp duty. **<u>Eligibility for depository system:</u>** Any company or institution must: (a) Be formed and registered as a company under the Act; (b) Be registered with SEBI as a depository; (c) Have framed by e-laws with the previous approval of SEBI; (d) Have one or more participants; (e) Have adequate systems and safeguards to prevent manipulation of the records: (f) Comply with the Depositories Act, 1996 & SEBI (Depositories & Participants) Regulations, 1996; (g) Meet all the eligibility criteria. Eligible securities required to be in Depository mode: The Act gives the option to the investors to receive securities in physical form or in depository mode. It is not necessary that all eligible securities must be in the depository mode. In the scheme of the depository's legislation, the

investor has been given supremacy. The investor has the choice of holding physical securities or opt for a depository based ownership record.

However, in case of fresh issue of securities, all securities have to be in dematerialized form. However, after that investor will also have the freedom to switch from depository mode to non-depository mode and vice versa. The decision would be entirely with the investor.

Fungibility: Fungibility means interchangeable or exchangeability. All securities held in depository shall be fungible i. e. all certificates of the same security shall become interchangeable in the sense that investor loses the right to obtain the exact certificate he surrenders at the time of entry into depository. It is like withdrawing money from the bank without bothering about the distinctive numbers of the currencies.

In short, if a security or commodity is fungible if it is perfectly interchangeable with any other of the same type and class securities or commodities. Most financial securities are fungible a share in a particular company is exactly the same as another share in the same company. Fungibility is the property of a good or a commodity whose individual units are capable of mutual substitution.

Rights of Depositor and the Beneficial Owner: The depository becomes the registered owner for the purpose of transferring ownership of securities on behalf of the beneficial owner. The beneficial owner possesses all the rights and benefits and is subjected to all the liabilities in respect of securities held by a depository.

Register of Beneficial Owner: Every depository is required to maintain a register and an index of beneficial owners in the manner provided in the companies act.

Pledge or Hypothecation of Securities held in a Depository: A beneficial owner may with the previous approval of depository create a Pledge or Hypothecation in respect of security owned by him through a depository. Every beneficial owner should give intimation of such pledge or hypothecation to the DP and such depository is required to make entries in its records accordingly. Any entry in the records of a depository should be evidence of a Pledge or Hypothecation.

Option to opt out in respect of any security: If a beneficial owner seeks to opt out of a depository in respect of any security he should inform the depository accordingly. Every issuer may, within 30 days of the receipt of intimation from the depository and on fulfillment of such conditions and on payment of such fees, issue the certificate of securities to the beneficial owner.

<u>Depositories to Indemnify Loss in certain cases</u>: Any loss caused to the beneficial owner due to the negligence of the depository or the participant, would be indemnified by the depository to such beneficial owner. Where the loss due to the negligence of the participant is

indemnified by the depository, the depository has the right to recover the same from such participant.

Powers of SEBI:

1) SEBI in the public interest or in the interest of investors may by order in writing call upon any issuer, depository, participant or beneficial owner to furnish in writing such information relating to the securities held in a depository as it may require;

Or

Authorise any person to make an enquiry or Inspection in relation to the affairs of the issuer, beneficial owner, depository or participant, who shall submit a report of such enquiry or inspection to it within such period as may be specified in the order.

- 2) Every director, manager, partner, secretary, officer or employee of the depository or issuer or the participant or beneficial owner shall on demand produce before the person making the enquiry or inspection all information or such records and other documents in his custody having a bearing on the subject matter of such enquiry or inspection.
- 3) if after making enquiry or inspection, SEBI is satisfied that it is necessary in the interest of investors, or orderly development of securities market or to prevent the affairs of any depository or participant being conducted in the manner detrimental to the interest of investors or securities market, SEBI may issue **such directions** to any depository or participant or any other person associated with the securities market, or to any issuer as may be appropriate in the interest of investors or securities market.

Power of the Board to give Directions: SEBI may after proper investigations and enquiry, issue such directions to any depository or participant or any person associated with the securities market or to any issuer which may be in the interest of investors or the securities market or to prevent the affairs of any depository or participant being conducted in the manner detrimental to the interest of investor or securities market.

CONCEPT & BACKGROUND:

Green Shoe Company, an American company was the first company which was allowed to use this option; therefore, this option is known as Green Shoe Option. A green shoe option (GSO) provides the option of allotting equity shares in excess of the equity shares offered in the public issue as a post – listing price stabilizing mechanism.

In other words, Green Shoe Option means an option of allocating shares in excess of the shares included in the public issue and operating a post – listing price stabilizing mechanism

for a period not exceeding 30 days, which is granted to a company to be exercised through a Stabilizing Agent.

In short, it is a mechanism for stabilizing prices of securities in the stock market through stabilizing agent.

Example: In India, ICICI bank has used Green Shoe Option in the first time in case of its public issue through book building mechanism in India.

Case Study: ABC Ltd. is planning to issue 2,00,000 shares, but in order to utilize the green shoe option, it actually issues 2,30,000 shares, in which case the over – allotment would be 30,000 shares. The company does not issue any new shares for the over – allotment.

The 30,000 shares used for the over – allotment are actually borrowed from the promoters with whom the stabilizing agent enters into a separate agreement. The company is required to be kept money received from the over – allotment in a separate bank account.

The Job of the stabilizing agent begins only after commencement of trading of share:

- (i) In case the shares are trading at a price lower than the offer price, the stabilizing agent starts buying the shares by using the money lying in the separate bank account. In this manner, by buying the shares when others are selling, the stabilizing agent tries to put the brakes on falling prices. The shares so bought from the market are handed over to the promoters from whom they were borrowed.
- (ii) In case the newly listed shares start trading at a price higher than the offer price, the stabilizing agent does not buy any shares. At this point, the company by exercising the green shoe option issues new shares to the stabilizing agent, which are in turn handed over to the promoters from whom the shares were borrowed.

PRICE STABILIZATION FUND: (JUNE 2009)

- ❖ The fund created to cause stabilization of share price of an entity especially after the public issue of securities is known as Price Stabilization Fund.
- ❖ The aim of the fun is to protect the share price from falling below the issue price. For the purpose of operating a price stabilization mechanism post listing the issuer company appoints a stabilization agent.
- The prime responsibility of SA shall be to stabilize post listing price of shares.
- ❖ To this end, SA shall determine the timing of buying the shares, the quantity to be bought, the price at which the shares are to be bought, etc.

The promoters or promoters' group shall not lend in excess of 15% of the total issue size. UNIT 6: SEBI (SUBSTANTIAL ACQUISITION OF SHARES & TAKEOVER) REGULATIONS, 2011

INTRODUCTION

SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011 aims at protecting interest of the investors in securities of a listed company providing amongst others, an opportunity for the public shareholders to exit where there is a substantial acquisition of shares or voting rights or control over a listed company, consolidation of holdings by existing shareholders and related disclosures and penalties for non – compliance etc.

SAST requires an acquirer to make an offer to shareholders of the target company on acquiring shares exceeding stipulated thresholds. It also contains provisions relating to open offer size and price; time bound process for making an open offer, exemption from making an open offer etc.

Provided that these regulations shall not apply to direct and indirect acquisition of shares or voting rights in, or control over a company listed without making a public issue, on the Innovators Growth platform of a recognised stock exchange.

SEBI (SUBSTANTIAL ACQUISITION OF SHARES AND TAKEOVERS) REGULATIONS, 2011

- <u>"FUGITIVE ECONOMIC OFFENDER"</u> shall mean an individual who is declared a fugitive economic offender under section 12 of the Fugitive Economic Offenders Act, 2018;

TAKEOVER CONCEPT

In this chapter, we focus takeover of those companies which are listed in a recognized stock exchange and where there are possibilities of hostile takeover of such company. Considering possibility of hostile takeover, SEBI has introduced a Takeover Regulations, 2011 which prohibits on hostile takeover and puts certain restrictions on acquirer.

Here, takeover means acquisition of shares or voting rights in a listed company for the objective to have control over such company. The person who acquires shares or voting rights is known as acquirer and the listed company whose shares are being acquired is known as Target Company. As per the Takeover Code, 2011, an acquirer is required to give mandatory and/or voluntary open offer to the shareholders of the Target Company before increasing its shareholding more than triggering point (i. e. equal to or more than 25% of shares or voting rights).

The process of such open offer is more or less like buy – back process of a company and difference between these two are: in takeover, the acquirer acquires shares and makes payment to the existing shareholders of the Target Company whereas in buy – back, the company itself pays money to its shareholders.

TRIGGER POINT

25% shares or voting rights: An acquirer, along with Persons acting in concert (PAC), if any, who intends to acquire shares which along with his existing shareholding would entitle him to exercise 25% or more voting rights, can acquire such additional shares only after making a Public Announcement (PA) to acquirer minimum 26% shares of the Target Company from the shareholders through an Open Offer.

(a) The trigger point of an open offer, if a person acquires 25% or more shares or voting rights of a listed target company.

Example: If a person, individually or through PACs (persons acting on concept) have 24.99% shares and wishes to acquire additional shares or voting rights in a company. The person has to acquire at least additional 26% shares of the target company via an open offer. It will trigger an open offer.

Thereafter, if the acquirer or the PAC acquires more than 25% of the shares, then the acquirer(s) needs to purchase a minimum of 26% of additional stakes in the target company (also known as triggering point for an open offer).

(b) No triggering point, if the acquirer or the PAC acquires 25% or less shares or voting rights.

Example: If a person, individually or through PAC's (persons acting on concert) acquires 24.99% of the shares or voting rights in a listed company, it will not trigger an open offer.

• Creeping acquisition limit:

These provisions apply to those existing shareholders who hold more than 25% of the shares or voting rights. For such acquires to increase their stake, they are allowed to acquire shares or voting rights to the extent of 5% in any financial year up to the maximum permissible non – public shareholding limit (i. e. 75%). This setting is termed as 'Creeping Acquisition'.

Acquisition of shares or voting rights in excess of the said limit (i. e. 5%) would trigger an open offer.

In other words, if an acquirer who holds 25% or more but less than maximum permissible non – public shareholding (i. e. 75%) of the Target Company, can acquire such additional shares as would entitle him to exercise more than 5% of the voting rights in any financial year ending March 31 only after making a Public Announcement to acquire minimum 26% shares of Target Company from the shareholders through an Open Offer.

Nothing contained in this regulation shall apply to acquisition of shares or voting rights of a company by the promoters or shareholders in control, in terms of the provisions of Chapter VI- A of Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018

Chapter VI A relates to Conditions & Manner of providing Exit Opportunity to Dissenting Shareholders. So, Company is acquiring shares as a part of providing Exit Opportunity as per ICDR guidelines, then SAST regulations shall not apply to such transaction. That means, no need to give open offer as per SAST.

MANDATORY OPEN OFFER (Very Important)

SEBI Takeover Regulations, 2011 provide certain trigger events wherein the Acquirer is required to give Open Offer to the shareholders of the Target Company to provide them exit opportunity.

MANDATORY OPEN OFFER

(**Regulation 3** of the SEBI Takeover Regulations, 2011):

The regulations provide that whenever an acquirer acquires the shares in excess of the threshold limit (i. e. 25%), then the acquirer is required to make a public announcement of offer to the shareholders of the Target Company. The Acquirer to give an open offer to the shareholders of Target Company on the acquisition of shares or voting rights entitling the Acquirer along with the persons acting in concert with him to exercise 25% or more voting rights in the Target Company.

Further, any acquirer who holds shares between 25% - 75%, together with PACs can acquire further 5% shares as creeping acquisition without giving an Open Offer to the shareholders of the Target Company up to a maximum of 75%. The quantum of acquisition of additional voting rights shall be calculated after considering the following:-

- ➤ <u>No Netting off allowed</u>: For the purpose of determining the quantum of acquisition of additional voting right, the gross acquisitions without considering the disposal of shares or dilution of voting rights owing to fresh issue of shares by the target company shall be taken into account.
- ➤ Incremental voting rights in case of fresh issue: In the case of acquisition of shares by way of issue of new shares by the target company, the difference between the pre allotment and the post allotment percentage voting rights shall be regarded as the quantum of additional acquisition.
- Public Announcement (Regulation 4 of the SEBI Takeover Regulations, 2011): If any acquirer including PAC acquires control over the Target Company irrespective of the fact whether there has been any acquisition of shares or not, then he has to give public announcement to acquire shares from shareholders of the Target Company.

Provided further that, acquisition pursuant to a resolution plan approved under section 31 of the Insolvency and Bankruptcy Code, 2016 [No. 31 of 2016] shall be exempt from the obligation under the proviso to the sub-regulation (2) of regulation 3.

(Inserted w.e.f. 31.05.2018)

VOLUNTARY OPEN OFFER (Very Important)

VOLUNTARY OPEN OFFER

(Regulation 6 of the SEBI Takeover Regulations, 2011):

Voluntary Open Offer means the Open Offer given by the Acquirer voluntarily without triggering the mandatory Open Offer obligations as envisaged under the regulations. Voluntary Offers are an important means for substantial shareholders to consolidate their stake and therefore recognized the need to introduce a specific framework for such Open Offers.

Limits and Conditions for Voluntary Open Offer:

Threshold limits and conditions for making the Voluntary Open Offer which are detailed below:-

- ➤ <u>Eligibility</u>: Prior holding of at least 25% Shares: To be eligible for making a Voluntary Open Offer, the regulations mandate the prior holding of at least 25% stake in the Target Company by the Acquirer along with the PACs.
- Acquisition of shares prior to the Voluntary Open Offer: The Acquirer shall become ineligible to make a Voluntary Open Offer if during the

- preceding 52 weeks, the Acquirer or PACs with him has acquired shares of the Target Company without attracting the obligation to make a Public Announcement of an Open Offer.
- Shareholding of the Acquirer and PACs post completion of Open Offer: Post completion of the Open Offer, the shareholding of the Acquirer along with PACs shall not exceed the maximum permissible non – public shareholding.
- ➤ Prohibition on the acquisition of shares during the Offer Period: SEBI Takeover Regulations, 2011 prohibit the acquirer who has made a Voluntary Open Offer from further acquiring the shares during the Offer Period otherwise than under the Open Offer.
- Restriction of the acquisition of shares post completion of Voluntary Open Offer: An acquirer and PACs who have made a Voluntary Open Offer shall not be entitled to further acquire shares for a period of 6 months after completion of the Open Offer except pursuant:
 - (i) To another Voluntary Open Offer.
 - (ii) To Completing Open Offer to the Open Offer made by any other person for acquiring shares of the Target Company.
- ➤ Offer Size: The Voluntary Open Offer shall be made for the acquisition of at least 10% of the voting rights in the Target Company and shall not exceed such number of shares as would result in the post-acquisition holding of the acquirer and PACs with him exceeding the maximum permissible non public shareholding (i. e. 75%) applicable to such Target Company.

DELISTING OFFER (REGULATION 5A)

(1) Notwithstanding anything contained in these regulations, in the event the acquirer makes a public announcement of an open offer for acquiring shares of a target company in terms of regulations 3, 4 or 5, **he may delist the company** in accordance with provisions of the Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009:

Provided that the acquirer shall have declared upfront his intention to so delist at the time of making the detailed public statement and a subsequent declaration of delisting for the purpose of the offer proposed to be made under sub regulation (1) will not suffice. (Inserted w.e.f 11.09.2018)

- (2) Where an offer made under sub-regulation (1) is not successful,-
- (i) on account of non-receipt of prior approval of shareholders in terms of clause (b) of sub-regulation (1) of regulation 8 of Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009; or
 - (ii) in terms of regulation 17 of Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009; or

(iii) on account of the acquirer rejecting the discovered price determined by the book building process in terms of sub-regulation (1) of regulation 16 of Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009,

the acquirer shall make an announcement within two working days in respect of such failure in all the newspapers in which the detailed public statement was made and shall comply with all applicable provisions of these regulations.

- (3) In the event of failure of the delisting offer made under sub-regulation (1), the open offer obligations shall be fulfilled by the acquirer in the following manner:
 - (i) the acquirer, through the manager to the open offer, shall **within five working days** from the date of the announcement under subregulation (2), file with the Board, **a draft of the letter of offer** as specified in sub-regulation (1) of regulation 16; and
 - (ii) shall comply with all other applicable provisions of these regulations.

Provided that the offer price shall stand enhanced by an amount equal to a sum determined at the rate of ten per cent per annum for the period between the scheduled date of payment of consideration to the shareholders and the actual date of payment of consideration to the shareholders.

Explanation: For the purpose of this sub-regulation, scheduled date shall be the date on which the payment of consideration ought to have been made to the shareholders in terms of the timelines in these regulations.

(Substituted w.e.f. 11.09.2018)

- (4) Where a competing offer is made in terms of sub-regulation (1) of regulation 20,-
 - (a) the acquirer shall not be entitled to delist the company;
 - (b) the acquirer shall not be liable to pay interest to the shareholders on account of delay due to competing offer;
 - (c) the acquirer shall comply with all the applicable provisions of these regulations and make an announcement in this regard, within two working days from the date of public announcement made in terms of sub-regulation (1) of regulation 20, in all the newspapers in which the detailed public statement was made.
- (5) Shareholders who have tendered shares in acceptance of the offer made under sub-regulation (1), shall be entitled to withdraw such shares tendered, within 10 working days from the date of the announcement under sub-regulation(2)
- (6) Shareholders who have not tendered their shares in acceptance of the offer made under sub-regulation (1) shall be entitled to tender

	their shares in acceptance of the offer made under these		
	regulations		
WITHDRAWAL OF OPEN OFFER (REGULATION 23)	1) An open offer for acquiring shares once made shall not be withdrawn except under any of the following circumstances,— (a)statutory approvals required for the open offer or for effecting the acquisitions attracting the obligation to make an open offer under these regulations having been finally refused, subject to such requirements for approval having been specifically disclosed in the detailed public statement and the letter of offer; (b)the acquirer, being a natural person, has died;		
	(c)any condition stipulated in the agreement for acquisition attracting the obligation to make the open offer is not met for reasons outside the reasonable control of the acquirer, and such agreement is rescinded, subject to such conditions having been specifically disclosed in the detailed public statement and the letter of offer; or		
	(d)such circumstances as in the opinion of the Board, merit withdrawal.		
	Explanation .—For the purposes of clause (d) of sub-regulation (1), the Board shall pass a reasoned order permitting withdrawal, and such order shall be hosted by the Board on its official website.		
	Provided that an acquirer shall not withdraw an open offer pursu to a public announcement made under clause (g) of regulation (2) of regulation 13, even if the proposed acquisi through the preferential issue is not successful.		
PUBLIC ANNOUNCEMEN T Irrespective of acquisition or holding of shares or voting rights to company, no acquirer shall acquire, directly or indirectly over such target company unless the acquirer makes announcement of an open offer for acquiring shares of some company in accordance with these regulations. (Regulation 4)			
	Regulation 14 of the SEBI Takeover Regulations, 2011 prescribe the manner of public announcements in connection with mandatory and voluntary open offer:		
	• Short Public Announcement: Short public announcement shall be made on the same day or as prescribed as on the date of transaction which triggered the Open Offer to all the stock exchanges where the shares of the Target Company are listed for the purpose of dissemination of the information to the public. Further, a copy of the public announcement shall be sent to SEBI and to the Target Company at its registered office within 1 working day of the date of short public announcement.		
	• Detailed Public Announcement: After the short Public Announcement,		

a detailed Public Announcement shall be made by the Acquirer within 5 working days from the date of short Public Announcement. Such public announcement is required to be published in all editions of any one English national daily with wide circulation, any one Hindi national daily with wide circulation, and any one regional language daily with wide circulation at the place where the registered office of the Target Company is situated and one regional language daily at the place of the stock exchange where the maximum volume of trading in the shares of the Target Company are recorded during the sixty trading days preceding the date of the public announcement.

Simultaneously, a copy of the publication shall be sent to SEBI, Stock Exchanges where the shares of the Target Company are listed and to the Target Company at its registered office.

• Offer Size/Minimum Price: Offer size is the price at which the acquirer announces to acquire shares from the public shareholders under the open offer. The offer price shall not be less than the price as calculated under regulation 8 of the SAST Regulations, 2011 for frequently or infrequently traded shares.

If the target company's shares are frequently traded then the open offer price for acquisition of shares under the minimum open offer shall be highest of the following:-

- ➤ Highest negotiated price per share under the share purchase agreement ("SPA");
- ➤ Volume weighted average price of shares acquired by the acquirer during 52 weeks preceding the public announcement ("PA");
- ➤ Highest price paid for any acquisition by the acquirer during 26 weeks immediately preceding the PA;
- ➤ Volume weighted average market price for sixty trading days preceding the PA;

If the target company's shares are infrequently traded then the open offer price for acquisition of shares under the minimum open offer shall be highest of the following:-

- Highest negotiated price per share under the share purchase agreement triggering the offer;
- ➤ Volume weighted average price of shares acquired by the acquirer during 52 weeks preceding the public announcement ("PA");
- ➤ Highest price paid for any acquisition by the acquirer during 26 weeks immediately preceding the PA;
- > The price determined by the acquirer and the manager to the open offer after taking into account valuation parameters including book value, comparable trading multiples, and such other parameters that are customary for valuation of shares of such companies.

If may be noted that the Board may at the expense of the acquirer, require valuation of shares by an independent merchant banker other than the manager to the offer or any independent chartered accountant in practice having a minimum experience of 10 years.

WILFUL DEFAULTER (REGULATION 6A)	The shares of the target company will be deemed to be frequently traded if the traded turnover on any stock exchange during the 12 calendar months preceding the calendar month, in which the PA is made, is at least 10% of the total number of shares of the target company. If the said turnover is less than 10%, it will be deemed to be infrequently traded. Notwithstanding anything contained in these regulations, no person who is a wilful defaulter shall make a public announcement of an open offer for acquiring shares or enter into any transaction that would attract the obligation to make a public announcement of an open offer for acquiring shares under these regulations: Provided that this regulation shall not prohibit the wilful defaulter from making a competing offer in accordance with regulation 20 of these regulations upon any other person making an open offer for acquiring shares of the target company.
FUGITIVE ECONOMIC OFFENDER (REGULATION 6B)	Notwithstanding anything contained in these regulations, no person who is a fugitive economic offender shall make a public announcement of an open offer or make a competing offer for acquiring shares or enter into any transaction, either directly or indirectly, for acquiring any shares or voting rights or control of a target company. (Inserted w.e.f 11.09.2018)
SUBMISSION OF DRAFT LETTER OF OFFER	The Acquirer shall submit a draft letter of offer to SEBI within 5 working days from the date of detailed public announcement along with a non – refundable fee as applicable. Simultaneously, a copy of the draft letter of offer shall be sent to the Target Company at its registered office and to all the Stock Exchanges where the shares of the Company are listed.
DISPATCH OF LETTER OF OFFER	The Acquirer shall ensure that the letter of offer is dispatched to the shareholders whose names appear on the register of members of the Target Company as of the identified date, and to the custodian of shares underlying depository receipts, it any, of the Company, within maximum 7 working days from the date of receipt of communication of comments from SEBI or where no comments are offered by SEBI, within 7 working days from the expiry of 15 working days from the date of receipt of draft letter of offer by SEBI.
	However, it is provided that where a shareholder holding less than 5% of the voting rights of the Target Company is resident outside India and local laws or regulations of such jurisdiction may expose the acquirer or the target company to material risk of civil, regulatory or criminal liabilities in the event the letter of offer in its final form were to be sent without material amendments of modifications into such jurisdiction, then the acquirer may refrain from dispatch of the letter of offer into such jurisdiction.
	Explanation: (i)Letter of offer may also be dispatched through electronic mode in accordance with the provisions of Companies Act, 2013.

	(ii)On receipt of a request from any shareholder to receive a copy of the letter of offer in physical format, the same shall be provided.			
	(iii)The aforesaid shall be disclosed in the letter of offer;			
OPENING OF THE OFFER	The tendering period shall start within <u>maximum 12 working days</u> from date of receipt of comments from the Board and shall remain open for 10 working days.			
COMPLETION OF REQUIREMENTS	Within 10 working days from the last date of the tendering period, the acquirer shall complete all requirements as prescribed under these regulations and other applicable law relating to the Open Offer including payment of consideration to the shareholders who have accepted the open offer.			
RESTRICTION ON ACQUISITION	If the acquirer or person acting in concert with him acquires shares of the target company during the period of 26 weeks after the tendering period at a price higher than the offer price, then the acquirer shall pay the difference between the highest acquisition price and the offer price, to all the shareholders whose shares were accepted in the open offer, within 60 days from the date of such acquisition.			
	However, such revision shall not be applicable if the acquisition is made through another open offer, Delisting of shares or open market purchase in the ordinary course on the stock exchange.			
PROVISION OF ESCROW	Not later than two working days prior to the date of the detailed public statement of the open offer for acquiring shares, the acquirer shall create an escrow account towards security for performance of his obligations under these regulations, and deposit in escrow account such aggregate amount as per the following scale:

UNIT 7: SEBI (BUY BACK OF SECURITIES) REGULATIONS, 2018

w.e.f 11th September 2018 INTRODUCTION Buy Back of shares means purchase of its own shares by the company. In short, buy back is a process when a company makes an offer to buy back its own issued shares. Buy-back of securities is a corporate financial strategy which involves repurchase of its outstanding shares by a company. Companies generally buyback shares in order to reorganise its capital structure, return cash to shareholders and enhance overall shareholders' value. Buyback leads to reduction in outstanding number of equity shares, which may lead to improvement in earnings per equity share and enhance return on net worth and create long term value for continuing shareholders. Explanation: For the purposes of these regulations, the term "shares" shall include equity shares having superior voting rights. **OBJECTIVE OF** to improve earnings per share; **BUY BACK** to improve return on capital, return on net worth and to enhance the long-term shareholder value; * to provide an additional exit route to shareholders when shares are undervalued or are thinly traded: to enhance consolidation of stake in the company; to prevent unwelcome takeover bids; * to return surplus cash to shareholders: * to achieve optimum capital structure; * to support share price during periods of sluggish market conditions; to service the equity more efficient. The decision to buy-back is also influenced by various other factors relating to the company, such as growth opportunities, capital structure, sourcing of funds, cost of capital and optimum allocation of funds generated. **AUTHORISATION** (a) Authorization in AOA: Buy Back must be authorized by the articles of & APPROVALS association of the company. In Case, there is no such provision, the company has to first alter the articles of association to authorize buy back. Buy Back can be made with the approval of Board of Directors or Shareholders by passing SR in GM, depending on the quantum of buy back. (b) Approval by Board of Directors: The Board of Directors can buy back upto 10% of total paid up Equity Share Capital and Free Reserves of the

UNIT 12: MUTUAL FUNDS

	UNIT 12. MUTUAL FUNDS
INTRODUCTION	Mutual fund is a process of pooling resources from the investors and investing funds in securities. The process of pooling the resources together and issuing units to the investors and then investing funds in securities is known as the scheme of "Mutual Funds". In other words, it works like a trust which pools the savings of investors and invests these in capital and money market instruments. Mutual funds offer good investment opportunities to the investors. Like all investments, they also carry certain risks.
ADVANTAGES OF MUTUAL FUNDS (Very Important)	 Professional Management: The funds of Asset Management Company (AMC) are managed by the experience and high caliber professionals who are backed by the dedicated research team. The research team analyses the performance & prospectus of the Companies for purpose of investments of funds. Diversified Investment: The AMC diversifies the total funds into different sectors or industry for reducing the risk. In short, diversification of funds reduces the risk of investment. Return Potential: Mutual funds provide higher returns as they invest in a diversified basket of selected securities. Low Cost: If we compare this form of investment with the other forms, the mutual funds are less expensive. Transparency: It provides regular information to the investors about the value of their investment. Liquidity: The open ended mutual funds are very liquid and it can be easily encashed by the investors. Tax Benefits: Many mutual funds are tax exempt under section 80C of the Income Tax Act. Protection to the Interest of Investors: Being regulated by the SEBI, mutual funds have to comply with the strict rules and regulations
RISKS INVOLVED IN MUTUAL FUNDS	designed to protect the interest of the Investors. Like all investments, Mutual Fund also carries certain risks. The risks involved in mutual fund are as follows;- (i) Excessive diversification of portfolio, losing focus on the securities of
(Very Important)	the key segments. (ii) Too much concentration on blue-chip securities which are high priced and which do not offer more than average return. (iii) Necessity to effect high turnover through liquidation of portfolio resulting in large payments of brokerage and commission. (iv) Poor planning of investment with minimum returns. (v) Unresearched forecast on income, profits and Government policies. (vi) Fund managers being unaccountable for poor results. (vii) Failure to identify clearly the risk of the scheme as distinct from risk of the market.

TYPES OF **Types of Funds - By Investment Objective MUTUAL FUND** Equity Debt Money Market **Equity Funds** ixed Income **Money Market Index Funds Funds Mutual Funds Sector Funds GILT Funds Balanced Funds** Liquid Funds

BASIC CLASSIFICATION OF MUTUAL FUNDS (MF)

OPEN - ENDED MUTUAL FUNDS:

It is a mutual fund scheme where investors invest and redeem their investment throughout the year. It gives flexibility to an investor to purchase and redeem the units of mutual funds at any time at a fixed NAV during the life time of funds.

Key features of such scheme are liquidity and its free entry and exit from the fund. It is a never ending fund and can be used it as systematic investment platform. The listing of open ended mutual fund is not required and the corpus of this fund is flexible and always varies.

CLOSE - ENDED MUTUAL FUNDS:

It is a fund which opens for limited period for subscription. The investors can invest directly in the fund at the time of initial offer. After initial offer, an investor can buy units of this type of mutual funds from the market like equity shares of any company. The listing of Close – ended mutual funds is mandatory on the recognized stock exchanges (i. e. BSE & NSE or others).

In other words, a close – ended scheme has fixed corpus and stipulated maturity period ranging between 2 and 5 years.

<u>DIFFERENCE BETWEEN OPEN - ENDED & CLOSE - ENDED MUTUAL FUNDS</u>:

Heading	Open – ended Mutual Funds	Close – ended Mutual Funds
Fixed Corpus	Variable corpus (total fund)	Fixed corpus (total fund)
Listing	Not required	Listing is mandatory

Opening	Always open	Only for limited period

MUTUAL FUND SCHEMES BASED ON INVESTMENT OBJECTIVE **Income Oriented Mutual Fund**: These funds offer a fixed income to investors and it has lower risk as compared to growth funds. Under this scheme, the Asset Management Company invests funds income oriented schemes like Bonds, Debentures, Government Bonds & securities and commercial papers.

(Very Important)

- > Features:
- (i) These schemes are generally have lesser risk as compared to Growth schemes.
- (ii) These schemes give fixed income.

<u>Growth oriented Mutual Fund</u>: These funds offer capital appreciation over a period. Under this scheme, the Asset Management Company invests funds in the equity shares which have significant growth potential. Despite good return under this mutual fund scheme, there is no assurance or guarantee of return. In other words, it is a scheme which has high risk and high return.

Features:

- (i) High risk and High Return.
- (ii) No Guarantee or assurance for return.
- (iii) The objective of this fund to get High capital appreciation.

Hybrid Mutual Funds/Balanced Mutual Funds: These funds have features of income oriented funds and growth oriented funds.

Example: HDFC Prudence, an equity oriented hybrid fund under this scheme, the Asset Management Company invests the entries funds in types of securities:

- (i) Equity shares, and
- (ii) Bonds & Fixed income oriented instruments.

<u>High Growth Schemes</u>: These funds primarily invest in high risk and high return volatile securities in the market and induce the investors with a high degree of capital appreciation.

<u>Capital Protection Oriented Scheme</u>: It is a scheme which protects the capital invested in the mutual fund through suitable orientation of portfolio structure.

INVESTMENT STRATEGIES

- <u>Income /Debt Fund</u>: If a particular scheme has been made for the purpose to invest only in debt instruments like bonds & deposits, it is known as Income/Debt Fund. These are considered as <u>conservative funds</u> since the investor wants the regular income and cannot wait for more than short to medium term.
- **Equity Fund**: If a particular scheme has been made for the purpose to invest only in equity shares, it is known as Equity Fund. This fund is considered as an <u>aggressive fund in nature</u> and the investors should have the long term horizon for investment.
- Balanced/Hybrid Funds: It is a mix of equity and debt fund and it can be further divided into Equity Oriented Fund and Debt Oriented Fund. These are the types of moderate funds which seek growth and stability but only taking the moderate risk.
- **Bottom up Investing**: This strategy considers only the fundamental

factors of a company before considering the economic prospects. In this strategy a bottom – up investor neglects the broad macroeconomics analysis and focuses on a specific stock based on its individual qualities.

- <u>Top down Investing</u>: This is an investment strategy. In this strategy, the investor begins with analysis of domestic and global economy and considers the factors like GDP, Interest Rate, inflation and exchange rate. Subsequently, the investor identifies the most promising companies in the economy. In short, it is an investment strategy which first takes a view on the economy and then looks at the industry scenario to assess the potential performance of a company.
- <u>Sector Funds</u>: Sector funds invest only in shares of companies belonging to a specific industry. These funds perform well so long as the industry or the sector is in the upswing, but the risk could be high, if the industry or the sector goes down.
- <u>Money Market Funds</u>: Money market funds are regarded as high liquidity oriented as investors attach more value for safety and liquidity.

OVERSEAS INVESTMENT BY MUTUAL FUNDS

Mutual Funds Companies are permitted to make investment in:

- (a) ADRs/GDRs issued by Indian or foreign companies.
- (b) Equity shares of companies listed on overseas stock exchanges.
- (c) Initial (IPO) and follow on public offerings (FPO) for listing at overseas stock exchanges.

Case Study on Transaction in excess of permissible limits SEBI v. Shriram Mutual Fund & Others

Facts: A penalty of Rs.2 lakh was imposed by Adjudicating Officer (AO) on Shriram Mutual Fund (SME) as it has repeatedly exceeded the permissible limits of transactions through its associate broker.

On an appeal by SME, SAT vide its final judgment and ordered to set aside AO's order inter – alia on the ground that the limit was not exceeded intentionally. SEBI filed an

appeal under Section 15Z of the SEBI Act in the Hon'ble Supreme Court.

Judgment of the Hon'ble Supreme Court: The Supreme Court set aside the judgment of SAT on the following grounds:-

	 (a) <i>Mensrea</i> is not an essential ingredient for contravention of the provisions of a Civil Act. (b) Penalty is attracted as soon as contravention of the statutory obligation has been made, and therefore the intention of the parties committing such violation becomes immaterial. (c) Unless the language of the statute indicates the need to establish the element of <i>Mensrea</i>, it is generally sufficient to prove that a default in complying with the statute has occurred. (d) Once the contravention is established, the penalty has to follow and only the quantum of penalty is discretionary. 				
Calculation of NAV	Mutual funds raise money by selling their shares to public and redeeming them at current net asset value. Net asset value is the value of the assets of each unit of the scheme. Thus if the NAV is more than the face value of, there is an appreciation for the investment. If the NAV is less than the face value, it indicates depreciation of the investment.				
	Every mutual fund shall compute the NAV of each scheme by dividing the net asset of the scheme by the number of units of that scheme outstanding on the date of valuation and public the same at least in two daily newspapers at intervals not exceeding one week. However, the net asset value of any scheme for special target segment or any monthly scheme which are not mandatorily required to be listed in the stock exchange may publish the NAV at monthly or quarterly intervals as permitted by SEBI.				
	National National Market Value+Current Assets-Current Liabilities				
	Net Asset Value = $\frac{Market\ Value + Current\ Assets - Current\ Liabilities}{No.of\ units\ Outstanding}$				
MUTUAL FUNDS COSTS	 The mutual funds costs are of two types:- Opening Expenses: It includes advisory fees, custodial fees, audit fees, Transfer agent fees, Trustees fees, Agent commission. Sales Charges: It includes commissions to the agents and expenses for distribution and marketing. 				
ROLL OVER OF A SCHEME	A mutual fund company can roll over a close ended scheme on or before the redemption of the scheme after giving an option to investors to redeem their units at NAV based price. The roll over scheme may include a fresh extension of period or continue under the same terms of the original scheme with or without modifications.				
SWITCH OVER ONE SCHEME TO ANOTHER	A mutual fund company may use its discretion to permit switching over of the investment in units from one to another of its schemes, to help the investor shift, from a high risk scheme to a low risk one or vice – versa.				
ANNUALIZED RETURNS	Investors buy and sell mutual fund shares/units during a short period and make profits. Percentage of profits in such short periods cannot be a reliable measure. The proper method is to calculate returns on an annualized basis at the compounded average rate over a year.

Meaning:

MMMFs means funds those are invested in short term debt securities in the money market like:

- (a) Certificate of deposits
- (b) Commercial Papers
- (c) Govt T-Bills

They are normally in Large Quantity

Significance:

As MMMFs are in Large Size, hence they get a higher yield on such short term instruments in comparison to individual investors. These schemes are ideal for corporate and individual investors as a means to park their surplus funds for short periods.

Features:

MMMFs are exclusively governed by SEBI(MF) Regulations, 1996. Return in the schemes of such funds may fluctuate, depending upon the interest rate prevailing in the market.

UNIT 13: COLLECTIVE INVESTMENT SCHEMES A collective investment scheme is a trust based scheme that comprises a BACKGROUND pool of assets that is managed by a collective investment scheme manager and is governed by the Collective Investment Schemes Regulations given by SEBI. The sums of money that are exchanged on the Stock Exchange and in the money markets make them too pricy for most people. With a CIS, the money or funds form a group of investors are pooled or collected together to form a CIS portfolio. Any scheme or arrangement made or offered by any company under COLLECTIVE **INVESTMENTS** which the contributions, or payments made by the investors, are pooled SCHEME and utilized with a view to receive profits, income, produce or property, and is managed on behalf of the investors is a CIS. Investors do not have day to day control over the management and operation of such scheme or arrangement. Section 11AA of the SEBI Act, 1992 defines it as any Scheme or Arrangement made or offered by any Company under which: (a) The contributions, or payments made by the investors, by whatever name called, are pooled and utilized solely for the purposes of the scheme or arrangement; (b) The contributions or payments are made to such scheme or arrangement by the investors with a view to receive profits, income, produce or property, whether movable or immovable from such scheme or arrangement; (c) The property, contribution or investment forming part of scheme or arrangement, whether identifiable or not, is managed on behalf of the investors; and (d) The investors do not have day to day control over the management and operation of the scheme or arrangement. On the backdrop or Sahara/Sharada scams, in 2013, SEBI modified the definition of Collective Investment Scheme and include scheme/arrangement floated by any person (instead of a company as was defined earlier) and any such scheme with corpus of more than Rs. 100 Crore shall also be deemed to be a CIS by SEBI. The Securities Laws (Amendment) Act, 2014 defines it "Any pooling of funds under any scheme or arrangement, which is not registered with SEBI, involving a corpus amount of Rs.100 crore or more shall be deemed to be a collective investment scheme". In short, A Collective Investment Scheme (CIS), as its name suggests, is an investment scheme wherein several individuals come together to pool their money for investing in a particular asset(s) and for sharing the

returns arising from that investment as per the agreement reached

between them prior to pooling in the money.

The CIS, however, does not include any Scheme or Arrangement:

- (i) Made or offered by a co operative society,
- (ii) Under which deposits are accepted by non banking financial companies,
- (iii) Being a contract of insurance,
- (iv) Providing for any Scheme, Pension Scheme or the Insurance Scheme framed under the Employees' Provident Funds and Miscellaneous Provisions Act, 1952,
- (v) Under which deposits are accepted under section 74 of the Companies Act, 2013,
- (vi) Under which deposits are accepted by a company declared as Nidhi or a mutual benefit society under section 406 of the Companies Act, 2013.
- (vii) Falling within the meaning of Chit business as defined in clause (d) of section 2 of Chit Fund Act, 1982, and
- (viii) Under which contributions made are in the nature of subscription to a mutual fund.

INVESTOR FINANCIAL EDUCATION (IMPORTANT)

An increased need for financial education is felt in both developed and developing countries. In developed countries, the increasing number of financial products, its complexity, importance of retirement savings, increased growth of secondary market has made the imparting of financial education imperative for all age groups, including students so that individuals are educated about financial matters as early as possible in their lives.

In the developing countries, the growing number of investors, technically advanced financial markets, liberalized economy etc. necessitates imparting of financial education for better operation of markets and economy and in the interest of investor. Further imparting of financial education is international concern due to growth of international transactions, international financial instruments like ADR, GDR etc., mobility of individuals from one country to another etc.

Initiatives taken so far on Financial Literacy in India

Investor education forms an important part of SEBI's efforts to protect the interest of the investors in securities markets. A series of information brochures and pamphlets have been issued in the past for the benefit of the investors. These publications indicate the various risks associated with capital market investment, the rights of the investors, the responsibilities and details of the grievance redressal machinery available to them and the remedy/relief to be obtained from different agencies like SEBI Ministry of Company Affairs, Stock Exchanges, Reserve Bank of India and Registrars to the Issue, apart from seeking relief through Consumers Disputes Redressal Forums, Company Law Board and Court of Law.

The investors' associations registered with SEBI, the stock exchanges and

professional bodies also conduct investors' education programmes from time to time to appraise the investors of the changes in the law and regulations and the methods of protecting themselves against malpractices and delays cropping up in the market. This is further supplemented by the journals and magazines in the field of corporate investment as well as newspaper articles which highlight the newly emerging problems, pitfalls and the methods to protect.

Securities Market Awareness Campaign

SEBI has also launched a comprehensive securities market awareness campaign for educating investors through workshops, audio – visual clippings, distribution of educative investor materials/booklets, dedicated investor website etc. It has also recognized certain investor associations through which the investor is educated.

Financial Literacy – cum – Counselling Centre

RBI has advised State Level Bankers' Committee convenor banks to set up, on a pilot basis, a financial literacy – cum – counseling centre in any one district, and based on the experience gained, to ask the concerned lead banks to set up such centres in other districts. It has also undertaken a project on financial literacy by asking banks to introduce comic books explaining terms like inflation, how to open an account, interest rates, etc.

INITIATIVES TAKEN SO FAR ON FINANCIAL LITERACY IN INDIA (IMPORTANT)

RBI's Initiatives

RBI has undertaken a project titled "Project Financial Literacy". The objective of this project is to disseminate information regarding the central bank and general banking concepts to various target groups like school and college students, women, rural and urban poor, defense personnel and senior citizens.

This project has been implemented in two modules, one module focusing on the economy, RBI and its activities, and the other module on general banking. The material is created in English and other vernacular languages.

SEBI's Initiatives

SEBI has started a nationwide financial education campaign to impart financial education to various target groups like school and college student, working executives, home makers, retired personnel, self help group etc.

Investor education programmes are conducted by SEBI through investor associations all over the country. Regional seminars are conducted by SEBI through various stakeholders viz. Stock Exchanges, Depositories, Mutual Funds Association of Merchant Bankers etc.

Ministry of Corporate Affairs (MCA) Initiatives

Ministry of Corporate Affairs (MCA) has a dedicated approach for empowering investors through education and awareness building.

MCA on 27th September, 2007 launched a website www.iepf.gov.in. It

provides information about IEPF and the various activities that have been undertaken/funded by it. This website provides information on various aspects such as role of capital market, IPO investing, Mutual Fund Investing, Stock Investing, Stock Trading, Depository Account, Debt Market, Derivatives, Indices, Indices (comic strip), Index Fund, Investor Grievance & Arbitration (Stock Exchanges), Investor Rights & Obligations, Do's and Don'ts etc.

Ministry of Corporate Affairs has taken various initiatives to educate investors, particularly, since 2001, the Investor Education and Protection Fund (IEPF) has been working for educating the investors and for creating greater awareness about investments in the corporate sector.

The Institute of Company Secretaries of India (ICSI) is organizing Investor Awareness Programmes under IEPF since 2005 and has organized more than 1700 Investor Awareness Programmes.

INVESTOR GRIEVANCE REDRESSAL MECHANISM AT SEBI

Investor Grievance

There will be occasions when an investor has a complaint against a listed company or an intermediary registered with SEBI. In the event of such complaint, the investor should first approach the concerned company/intermediary against whom there is a complaint.

(Very Important)

Sometimes the response received may not be satisfactory. Therefore, investors should know as to which authority they should approach, to get their complaints redressed.

GENERAL GRIEVANCES OF INVESTORS:

SCORES (SEBI Complaints Redress System): SCORES is a web based centralized grievance redress system of SEBI (www.scores.gov.in). SCORES enables investors to lodge and follow up their complaints and track the status of redressal of such complaints from anywhere.

This enables the market intermediaries and listed companies to receive the complaints online from investors, redress such complaints and report redressal online. All the activities starting from lodging of a complaint till its closure by SEBI would be online in an automated environment and the complainant can view the status of his complaint online.

Features:

(i) SCORES is web enabled and provides online access 24×7 ;

- (ii) Complaints and reminders thereon can be lodged online at anytime from anywhere;
- (iii) An e mail is generated instantly acknowledging the receipt of complaint and allotting a unique complaint number to the complainant for future reference and tracking;
- (iv) The complaint forwarded online to the entity concerned for its redressal:
- (v) The entity concerned uploads an Action Take Report (ATR) on the complaint;
- (vi) SEBI peruses the ATR and closes the complaint if it is satisfied that the complaint has been redressed adequately;
- (vii) The concerned investor can view the status of the complaint online from the above website by logging in the unique complaint registration number:
- (viii) The entity concerned and the concerned investor can seek and provide clarification on his complaint online to each other;
- (ix) Every complaint has an audit trial; and
- (x) All the complaints are saved in a central database which generates relevant MIS reports to enable SEBI to take appropriate policy decisions and/or remedial actions, if any.

How to file a complaint on Scores?

- To register a complaint online on SCORES Portal (http://scores.giv.in) click on Complaint Registration under Investor Corner.
- The complaint registration form contains personal details and complaint details.
- There are certain mandatory fields in the form. These fields includes name, Address for correspondence, state, email address.
- After filling the personal details, select the complaint category, entity name, nature of compliant related to, complaint details in brief (upto 1000 characters)
- A PDF document (upto 1MB of size for each nature of complaint) can also be attached along with the complaint as the supporting documents.

What are the limitations in dealing with complaints?

Sometimes a complaint is successfully resolved and the entity is advised to send reply to complainant. But in certain cases, the entity or company denies wrongdoing, and it remains unclear as to who is wrong or whether any wrongdoing occurred at all. If this happens, SEBI cannot act as a judge

or an arbitrator and force the entity or company to resolve the complaint. Further, SEBI cannot act as personal representative or attorney of the complainant. Securities laws and other laws provide important legal rights and remedies if an investor has suffered wrongdoing. On their own, investors can also seek to resolve their complaint through the courts, consumer courts, or arbitration.

When can a case be referred for arbitration?

If the grievance is not resolved by the Stock Exchange/Depository due to disputes, an investor can file arbitration subject to the Bye-laws, Rules and Regulations of the exchange / Depository. All claims, differences or

disputes between the investors and stock brokers/depository participants can be filed for arbitration. To obtain information about when and how to file an arbitration claim.

Simplified arbitration can be a less costly alternative to legal recourse before the courts of law. If the investor has an account with the broker or a depository participant (DP), he/she can choose arbitration to settle disputes. The investor generally cannot pursue an issue through arbitration if it is barred by limitation prescribed. When deciding whether to arbitrate, the investor has to bear in mind that if the broker or DP goes out of business or declares bankruptcy, he/she might not be able to recover money even if the arbitrator or court rules in his/her favor. However, with certain restriction to the nature of transactions, Stock Exchanges may settle on case to case basis the claim of an investor up to a limit prescribed in the "Investor protection fund" guidelines of the respective Stock Exchange.

The claimant is required to carefully review the rules governing simplified arbitration before filing a claim and should also weigh the costs of arbitrating against the likelihood of being able to collect any award in favor. An investor, who has a claim / counter claim upto ₹10 lakh and files arbitration reference for the same within six months, need not make any deposit for filing arbitration.

When can SEBI take action for non-resolution of the complaint?

While the entity is directly responsible for redressal of the complaint, SEBI initiates action against recalcitrant entities on the grounds of their unsatisfactory redressal of large number of investor complaints as a whole.

Which are the matters that are not considered as complaints by SEBI?

- Complaints that are incomplete or not specific
- Allegations without supporting documents
- Offering suggestions or seeking guidance/explanation
- Seeking explanation for non-trading of shares or illiquidity of shares
- Not satisfied with trading price of the shares of the companies
 - Non-listing of shares of private offer
 - Disputes arise out of private agreement with companies/intermediaries.

SEBI (INFORMAL GUIDANCE) SCHEME, 2003

- (d) any mutual fund trustee company or asset management company.
- (e) any acquirer or prospective acquirer under the SEBI (Substantial Acquisition of Shares & Takeovers)Regulations, 2011.

The Guidance Scheme, further deals with various aspects such as the nature of request, fees to be accompanied alongwith request letter, disposal of requests, SEBI's discretion not to respond certain types of requests and confidentiality of requests etc.

The informal guidance may be sought for and given in two forms:

- **No action letters**: SEBI indicates that the Department would or would not recommend any action under any Act, Rules, Regulations, Guidelines, Circulars or other legal provisions administered by SEBI to the Board if the proposed transaction described in a request made under Para 6 is consummated.
- **Interpretive letters**: SEBI provides an interpretation of a specific provision of any Act, Rules, Regulations, Guidelines, Circulars or other legal provision being administered by SEBI in the context of a proposed transaction in securities or a specific factual situation.

The request seeking informal guidance should state that it is being made under this scheme and also state whether it is a request for a no action letter or an interpretive letter and should be accompanied with a fee of ₹25,000/- and addressed to the concerned Department of SEBI. It should also describe the request, disclose and analyse all material facts and circumstances involved and mention all applicable legal provisions. SEBI may dispose off the request as early as possible and in any case not later than 60 days after the receipt of the request. The Department may give a hearing or conduct an interview if it feels necessary to do so. The requestor shall be entitled only to the reply. The internal records or views of SEBI shall be confidential.

SEBI may not respond to the following types of requests:

- (a) those which are general and those which do not completely and sufficiently describe the factual situation;
- (b) those which involve hypothetical situations;
- (c) those requests in which the requestor has no direct or proximate interest:
- (d) where the applicable legal provisions are not cited;
- (e) where a no action or interpretive letter has already been issued by that or any other Department on a substantially similar question involving substantially similar facts, as that to which the request relates;
- (f) those cases in which investigation, enquiry or other enforcement action has already been initiated;
- (g) those cases where connected issues are pending before any Tribunal or Court and on issues which are subjudice; and,
- (h) those cases where policy concerns require that the Department does not respond.

Where a request is rejected for non-compliance, the fee if any paid by the requestor shall be refunded to him after deducting therefrom a sum of ₹5,000/- towards processing charges. However SEBI is not be under anyobligation to respond to a request for guidance made under this scheme, and shall not be liable to disclose the reasons for declining to reply the request.

Confidentiality of Request

- Any person submitting a letter or written communication under this scheme may request that it receive confidential treatment for a specified period of time not exceeding 90 days from the date of the Department's response.
- ❖ The request shall include a statement of the basis for confidential treatment.
- ❖ If the Department determines to grant the request, the letter or written communication will not be available to the public until the expiration of the specified period.
- ❖ If it appears to the Department that the request for confidential treatment should be denied, the requestor will be so advised and such person may withdraw the letter or written communication within 30 days of receipt of the advise, in which case the fee, if any, paid by him would be refunded to him.
- ❖ In case a request has been withdrawn under clause (c), no response will be given and the letter or written communication will remain with the SEBI but will not be made available to the public.
- ❖ If the letter or written communication is not withdrawn, it shall be available to the public together with any written staff response.
- ❖ A no action letter or an interpretive letter issued by a Department constitutes the view of the Department but will not be binding on SEBI, though the SEBI may generally act in accordance with such a letter.
- ❖ The letter issued by a Department under this scheme should not be construed as a conclusive decision or determination of any question of law or fact by SEBI. Such a letter cannot be construed as an order of SEBI under Section 15T of the Act and shall not be appealable.
- ❖ Where a no action letter is issued by a Department affirmatively, it means that the Department will not recommend enforcement action to the Board, subject to other provisions of this scheme.

PART 2: CAPITAL MARKETS (30 MARKS) UNIT 15: STRUCTURE OF CAPITAL MARKETS

PART A: CM INVESTMENT INSTITUTIONS

INTRODUCTION

In any economy, financial Institutions play an important role because all the financial dealings and matters are handled and monitored by such Institutions.

The major components of financial Institutions are banks, insurance companies, investment companies, consumer finance companies, and other specialized financial institutes. These institutions provide a variety of financial products and services to fulfil the varied needs of the commercial sector.

Besides, they provide assistance to new enterprises, small and medium scale enterprises as well as industries established in backward areas. Thus, they have helped in reducing regional disparities by inducing widespread industrial development.

NATIONAL LEVEL INSTITUTIONS

1. <u>ALL-INDIA DEVELOPMENT BANKS (AIDBS)</u>:- Includes those development banks which provide institutional credit not only to large and medium scale enterprises but also help in promotion and development of small scale industrial units.

Following are the banks which caters to the need for the growth of different sectors on India:

- <u>- Industrial Development Bank of India (IDBI)</u>:- It was established in July 1964 as an apex financial institution for industrial development in the country. It caters to the diversified needs of medium and large scale industries in the form of financial assistance, both directly and indirectly.
- <u>- Industrial Finance Corporation of India (IFCI):</u> It was the first development finance institution set up under the IFCI Act 1948. in order to pioneer long-term institutional credit to medium and large scale enterprises.
- Small Industries Development Bank of India (SIDBI):- It was set up by the Government of India in April 1990, as a wholly owned subsidiary of IDBI. It is the principal financial institution for promotion, financing and development of small scale industries in the economy. It aims to empower the Micro, Small and Medium Enterprises (MSME) sector with a view to contributing to the process of economic growth, employment generation and balanced regional development.
- Industrial Investment Bank of India Ltd (IIBI):- It was set up in 1985 under the Industrial reconstruction Bank of India Act, 1984, as the principal credit and reconstruction agency for sick industrial units. It was converted into IIBI on March 17, 1997, as a full-fledged development financial institution.
- 2. SPECIALISED FINANCIAL INSTITUTIONS (SFIS):-These are the institutions which have been set up to serve the increasing financial

needs of trade and commerce in the area of venture capital, credit rating and leasing, etc.

Following institutions are considered as SFIs in our country:

PREFERENCE SHARES (EXPLANATION TO SECTION 55 OF THE COMPANIES ACT, 2013)

Preference Share Capital means a share capital which has preferences over equity shares in respect of dividend and capital. Preference shareholder has two types of preference over equity shares:

- (i) Payment of Dividend
- (ii) Payment OF Capital at the time of Liquidation

In other words, preference share means a part of issued share capital which has preferential rights in respect of dividends and capital in case of winding – up.

Note: No Company shall issue preference shares which are irredeemable.

KINDS OF PREFERENCE SHARES:

Cumulative Preference Shares:

Preference shares shall be treated as cumulative or non – cumulative with regard to the payment of dividends. A cumulative preference share confers

a right on its holder to claim fixed dividend of the past years, current years and also on future year's profits. The dividend keeps on accumulating until it is fully paid.

Non – Cumulative Preference shares:

A non – cumulative preference share gives right to its holder to receive dividend out of the current financial year profits. If no profits are available in current financial year, the preference shareholders get nothing and they cannot claim unpaid dividend in subsequent year.

Convertible Preference Shares:

The preference shares which carry with it the right to be converted into the equity shares after the expiry of a period is called convertible preference shares.

Redeemable Preference Shares (Section 55 of the Companies Act, 2013): If the articles of association of a company provide, the redeemable preference shares can be issued subject to the following conditions:-

- (i) These preference shares are redeemable after a specific period and money is returned to shareholders.
- (ii) A Company cannot issue preference shares which are irredeemable.
- (iii) The Company can issue preference shares which are redeemable not later than 20 years.

Note: A Company engaged in infrastructure projects can issue shares redeemable exceeding 20 years.

Special Note: In case a company engaged in the setting up and dealing with infrastructural projects may issue preference shares for a period exceeding 20 years but not exceeding 30 years. Subject to the redemption of a minimum 10% of such preference shares per year from the 21st year onwards or earlier, on proportionate basis, at the option of the preference shareholders.

Irredeemable Preference Shares:

The kinds of shares which are not redeemable except on the happening of certain events such as winding up etc are known as irredeemable preference shares.

Note: The Companies are prohibited to issue irredeemable preference shares and in case of redeemable preference shares, the issuer company must redeem the preference shares within 20 years from the date of its issue.

Participating Preference Shares:

The kinds of preference shares which have the right to participate in the profits left after all the dues are paid to others are called as participating preference shares.

Non – Participating Preference Shares:

The kinds of preference shares who have no other right in addition to the

fixed dividends are called as non – participating preference shares.

	❖ These are issu	ieu by companies and insti	tutions to share the risk and

expand the capital to link investors return with the size of insurer losses. ❖ The coupon (Interest) rate and the principal of the bonds are decided by the occurrence of disasters. * However, these bonds haven't yet been issued by any insurance company in India. ❖ These instruments offer high returns if insurance claims are low, but when more claims filed due to disaster, the return of an investor will be low. In other words, the bigger the losses, the smaller the return and the smaller losses or no losses, the bigger the return. **OPTION BONDS** • Option bonds are like option contracts in which the underlying asset is a bond. ❖ A bond option allows investors the ability to hedge the risk of their bond portfolios or speculate on the direction of bond prices with limited risk. ❖ Those cumulative and non – cumulative bonds are covered by these instruments where the interest is payable on maturity or periodically and redemption premium is offered. EASY **EXIST** These instruments cover the bonds which provide liquidity as well as an BOND easy exit route to the investors by the way of redemption or buy - back. Additional bonds are payable in place of Interest. PAY IN KIND The bond where the interest for the first three to five years is paid through BONDS the issue of additional bonds is known as pay in kind bonds. In other words, it is a bond in which interest payments come in form of more bonds, rather than cash and it resolves the liquidity issues of a company. FLOATING * Floating rate Bonds are bonds that have variable interest rate and the RATE BONDS rate of interest is subject to change as per the market conditions. AND NOTES ❖ The floating rate bonds take reference from money market like MIBOR & LIBOR. * This kind of instrument does not give fixed rate of interest and is allowed to float the rate subject to the market conditions. This instrument is used by the issuers to hedge themselves against the volatility in interest rates. COMMODITY Commodity bonds are bonds issued to share the risk and profitability of future commodity prices with the investor. BOND * It is a bond which protects the capital of investors from the future inflation of any commodity. **Example:** Petro bonds, silver bonds, gold bonds & coal bonds. Petro bond may carry fixed rate of interest with part of face value of bonds denominated in barrels of oil. ❖ However, the commodity bond does carry more potential to generate a higher return than a fixed rate bond there is also more risk involved. ❖ While it is unusual, there is always the possibility that the underlying commodities will not perform as anticipated and the return will be less than originally projected. ❖ In general, a commodity – backed bond tends to carry less volatility than many stock issues.

TRACKING STOCKS

It is a type of common stock which depends upon the financial performance of a specific business unit or an operating division. If the unit or division or subsidiary company performs well, the value of the stock increases and vice – versa. It is issued by a publicly held company to track the value of one segment of the company.

Example: ABD Ltd. is publicly held company and has 10 divisions at different locations and each division is producing separate products. One division which produces FMCG products, the company had issued tracking stocks for such division.

Important points for above example:

- (i) If such FMCG division earns profit, the tracking stock holders would get dividend.
- (ii) If such FMCG is in loss, the tracking stock holders would not get dividend even if the ABC Ltd. is having profits.
- (iii) The tracking stock holders have a financial interest only in that FMCG division.
- (iv) The tracking stock holders usually have no voting rights.

Tracking stock does not represent or require any change (de – merger or spin off) in business structure. Holders of tracking stock are considered to hold equity in the parent company and not the specific entity represented by the tracking stock. Tracking stock in often set up by companies that have several diverse divisions, both so that investors can take a share in a division of their interest, and so that the performance of these divisions can be tracked in terms of shareholder interest. A company will sometimes issue a tracking stock when it has a very successful division that it feels is under – appreciated by the market and not fully reflected in the company's stock price.

In this example, ABC Ltd. issued shares of BCD Ltd. (subsidiary of ABC Ltd.) which makes huge profit year to year. The shares of BCD Ltd. will be treated as tracking stock since the holding company allows investors to invest in a particular stock of one of its subsidiary company.

Case Study: Liberty Media had tracking stocks for Liberty Interactive and Liberty Capital listed on NASDAQ.

Features and advantages of tracking stock:

- (i) The company can keep control over its subsidiary;
- (ii) A lower cost can be obtained by getting a better credit rating;
- (iii) The marketing and administrative functions of the business are shares;
- (iv) Acquisitions are possible by the parent company.

MORTGAGE BACKED SECURITIES

Mortgage – backed securities (MBS) are bonds secured by home and other real estate loans. They are created when a number of these loans, usually with similar characteristics, are pooled together. These securities assure a fixed return which is derived from the performance of the specific assets. They are issued with a maturity period of 3 to 10 years and backed by pooled assets like mortgages, credit card receivables, etc.

Example: A bank offering home loan might round up Rs.20 crore worth of such loans. That pool is then sold to a Government Agency or a government sponsored – enterprise (GSE), or to others to be used as the collateral for the new MBS.

Features of assets to be securitized:

The assets to be securitized shall have the following features:-

- (a) The cash flows generated from the assets should be received periodically in accordance with a Pre determined schedule.
- (b) The actual cash flows generated from the assets should be predictable.
- (c) The assets should be large in number and total value to be issued in securitized form.
- (d) The assets should be sufficiently similar in nature to enable pooling of their cash flows.
- (e) The assets should be marketable.

Advantages to Issuer:

- (a) The issuer can generate cash from the assets immediately enabling funds to be redeployed in other projects.
- (b) The issuer may be able to improve balance sheet ratios by excluding the original assets and the securities created by the assets from the balance sheet by suitable structuring of the transaction.

<u>Advantages to Investor</u>: These instruments have a relatively low credit risk since the securities are backed by good quality collateral and offer a higher yield than Government securities.

Derivatives

The term "derivatives" indicates that it has no independent value i. E. Its value is entirely derived from the value of the underlying assets. The underlying assets can be securities, commodities, bullion, currency, livestock or anything else.

In other words, derivatives means a forward, future and option or any other hybrid contract of pre-determined fixed duration, linked for the purpose of contract fulfillment to the value of a specified real or financial asset or to an index of securities. In india, the govt. Of india had introduced the concept of "derivatives" in year 1999 by amending securities contract (regulation) act, 1956.

A derivative includes:

- (i) a security derived from a debt instrument, share, loan, whether secured or unsecured, risk instrument or contract for differences or any other form of securities.
- (ii) contract which derives its value from the prices, or index of prices, of underlying securities.

FUTURE CONTRACT

- ❖ Future contract means a legally binding agreement to buy or sell the underlying assets on a future date.
- ❖ Future contract are the organized/standardized contracts in terms of quantity, quality, delivery time and place for settlement on any date in future.

- ❖ The contract expires on a pre specified date which is called as expiry date of contract. On expiry, futures can be settled by the delivery of underlying assets to one party or receipt of cash by another party.
- ❖ Cash settlement enables the settlement of obligations arising out of the future/option contract in cash.

OPTION CONTRACT

- ❖ It is a contract which gives the buyer/holder of the contract the right to buy/sell the underlying asset at a pre determined price within or at the end of the specified period. It is not an obligation on the option holder.
- ❖ The buyer/holder of the option purchases the right from the seller/writer for a consideration which is called as premium. The seller/writer of an option is obliged as per the terms of the contract when the buyer/holder exercises his rights.

There are two types of Option Contracts:

<u>Call Option</u>: A Call option is an option to buy an underlying asset at a specific price on or before expiry date of the contract. In this way, Call options are like advance money for purchase of any land and building.

Example: If you want to sell your one flat which located in Dwarka, New Delhi to Mr. Raman. You have asked Mr. Raman to pay Rs.10 lacs as an advance for selling of your flat. As per the terms and conditions of an agreement to sale, Mr. Raman will pay Rs.10 lacs as advance and balance amount in one month. Mr. Raman has the right to buy within one month and no other liability.

When you buy a Call option, the price you pay for it, called the option premium, secures your right to buy that certain stock at a specified price, called the strike price. If you decide not to use the option to buy the stock, and you are not obligated to, your only cost is the option premium.

<u>Put Option</u>: Put options are options to sell a stock at a specific price on or before a certain date. In this way, Put options are like insurance policies.

FORWARD CONTRACT

It is an agreement to buy or sell an asset(commodities/foreign exchange) at a certain future time for a certain price. It is different than a spot contract, which is an agreement to buy or sell an asset today.

Example: Suppose on January 1, 2016, an Indian textile exporter receives an order to supply his product to a big retail chain in the US. Spot price of INR/US exchange rate is Rs.62/dollar. After six months, the exporter will receive \$1 million (Rs.6.5 crore) for his products.

Since all his expenditure is in rupee term therefore he is exposed to currency risk. Let's assume that his cost of production is Rs.5 crore. To avoid uncertainty, the exporter enters into a six – month forward contract with a bank (with some fees) at Rs.65 to a dollar. So the exporter is hedged completely.

If exchange rate appreciates to Rs.55 after six months, then the exporter

will receive Rs.5.5 crore after converting his \$1 million and the rest Rs.1 crore will be provided by the bank. If exchange rate depreciates to Rs.70 per dollar then the exporter will receive Rs.7 crore after conversion, but has to pay Rs.0.50 crore to the bank. So no matter what the situation, the exporter will end up with Rs.6.5 crore.

In other words, an agreement for the future delivery of the underlying commodity or security at a specified price at the end of a designated period of time is known as forward contract.

Hedge funds

Hedge means fence, barrier & hurdle (other meaning – protection & security). In other words, it is a process of reducing and controlling future risk by taking some steps in advance.

Hedge fund refers to an alternative investment vehicle that is designed to protect investment portfolios from market uncertainty, while generating positive returns in both up and down markets. Hedge funds are unregistered private investment partnerships, funds or pools that may invest and trade in many different markets, strategies and instruments (including securities, non – securities and derivatives) to provide certain periodic and standardized pricing and valuation information to investors.

In short, it is an alternative investment that is designed to protect the capital (investment amount) of an investor from market uncertainty and generate positive returns from the market fluctuations.

What is hedging concept?

Case study: steel industry

<u>Facts</u>: an automobile manufacturer purchases huge quantities of steel as raw material for automobile production. The automobile manufacturer enters into a contractual agreement to export automobiles in three months to automobiles dealers in the european market.

This presupposes that the contractual obligation has been fixed at the time of signing the contractual agreement for exports. The automobile manufacturer is now exposed to risk in the form of increasing steel prices. In order to hedge against increasing price risk, the automobile manufacture can buy steel future contracts, which would mature after three months hence. In case of increasing steel prices, the automobile manufacturer is protected.

<u>Hedging</u>: it is a risk management strategy used in limiting the probable loses from market fluctuations in respect of the prices of commodities, currencies, or securities. In this case, automobile manufacturer protected his risk by buying future contracts in advance. It means automobile manufacturer hedged his position against the probable risk of price increase.

Accordingly, a hedge fund's purpose is to maximize investor returns and eliminate risk. Hence, the word hedge or hedge fund came into being because the aim of these vehicles was to make money regardless of the market conditions "climbed higher or declined".

Benefits (advantages) of hedge funds include:

- (a) investment strategies that have the ability to generate positive returns in both rising and falling equity and bond markets.
- (b) hedge funds in a balanced portfolio can reduce overall portfolio risk and volatility and increase returns.

(c) a huge variety of hedge fund investment styles – provide investors the ability to precisely customize investment strategy.

Risk factors (disadvantages) in hedge funds include:

- (a) concentrated investment strategy exposes hedge funds to potentially huge losses.
- (b) hedge funds typically require investors to lock up money for a period of years.
- (c) use of leverage, or borrowed money, can turn what would have been a minor loss into a significant loss.

DOMESTIC HEDGE FUNDS

- ♦ Hedge funds are organized as corporations in countries like USA as limited partnerships to accommodate investors that are subject to taxation policies of the United States.
- ❖ This type of hedge fund may use the business form of Limited Liability Companies (LLC), Limited Liability Partnership (LLP) or Business Trusts.
- ❖ In these types of business forms, LLC & LLP and business trusts are not liable to tax whereas the individual investors are liable to tax. This type of concept is very popular in USA.

OFFSHORE HEDGE FUNDS

- ❖ Offshore means a place situated at sea some distance from the shore or outside the jurisdiction of a Country.
- ❖ It means any investments through an organized corporation/company from foreign country.
- ❖ Generally, these funds are targeting those countries which have tax free regime. These hedge funds are typically organized as corporations in certain countries like Cayman Islands, British Virgin Islands, the Bahamas or Bermuda. They attract investments of US tax exempt entities.

EXCHANGE TRADED FUNDS (ETFS)

ETFs are new varieties of mutual funds which were introduced in 1993. Exchange Traded Fund is a security that tracks an index, a commodity or a sector like an index fund or a sectoral fund but trades like a stock on an exchange. It is similar to close – ended mutual fund listed on stock exchanges.

In other words, ETFs are baskets of securities that are traded, like individual stocks, on an exchange. In the simplest terms, Exchange Traded Funds (ETFs) are funds that track indices like the NIFTY Index, SENSEX etc. ETFs can be bought and sold exactly like a stock of an individual company during the entire trading day. Furthermore, they can be bought on margin, sold short or bought at limit prices. Exchange traded funds can help investors build a diversified portfolio that's easy to track.

In short, they are similar to index mutual funds but are traded like securities. As their name implies, Exchange Traded Funds represent a basket of securities that are traded on an exchange.

Advantages of ETFs

- (i) They can be bought and sold throughout the trading day.
- (ii) They have the ability to short or buy ETFs on margin.
- (iii) Low annual expenses are incurred.

(iv) Tax efficiency is insured.

Disadvantages of ETFs

- (i) An extra cost in the form of commissions is present.
- (ii) Only large institutions and wealthy persons can deal in ETFs.
- (iii) ETFs don't trade at the Net Asset Value.

FUNDS (FOFS) (IMPORTANT)

It is a mutual fund scheme which invests in the schemes of same or other mutual funds present in the market instead of investing in securities.

These funds can be broadly classified into:

- ➤ <u>Sector Specific Funds</u>: These funds invest in the various sectors of the economy and protect themselves by not investing the whole amount in only one sector.
- Asset Allocation Funds: They diversify the investments by holding several different kinds of assets at the same time. They are also known as life cycle funds.

Benefits of FOFs are:

- 1. Diversified investments: as a fund of funds invests in the schemes of other funds, it provides a greater degree of diversification.
- 2. Uncomplicated scheme: instead of investing in different stocks and keeping track record of all of them, it will be much easier to invest in and track only one fund, which in turn invests in other mutual funds.
- 3. Cheap: while entering into the capital markets it is difficult to diversify because of limited funds. Fund of funds provide an opportunity to go for diversification with comparatively limited amounts.
- 4. Risk to the extent possible is eliminated.
- 5. Expertise of various managers proves to be beneficial.

The Disadvantages of FOFs are:

- 1. Additional fees: the more amount of diversification increases the cost in terms of increase in fees.
- 2. Various management(every manager has a different style of working), operational (possibility of non-compliance and fraud) and Qualitative risks (Organisational structure, infrastructure, investment process, etc) are involved.

WARRANTS

Warrant means an option issued by a company whereby the buyer is granted the right to purchase a number of shares (usually one) of its equity share capital at a given exercise price during a given period.

The holder of a warrant has the right but not the obligation to convert them into equity shares. Thus in the true sense, a warrant signifies optional conversion. In case the investor benefits by conversion of warrant, then he will convert the warrants, else he may simply let the warrant lapse. The companies listed on the Exchange can issue warrants in accordance with SEBI (ICDR) Regulation 2009 on rights issue, preferential issue, Qualified Institutional placement, etc.

<u>For example</u> if the conversion price of the warrant is Rs. 70/-and the current market price is Rs.110/-, then the investor will convert the warrant and enjoy the capital gain of Rs.40/-. In case the conversion is at Rs.70/- and the current market price is Rs.40/-, then the investor will simply let the warrant lapse without conversion.

• Phase I: From January 01, 2019, the UPI mechanism for retail individual investors through intermediaries will be made effective along with the existing process and existing timeline of T+6 days. The same will continue, for a period of 3 months or floating of 5 main board public issues, whichever is later.

- Phase II: Thereafter, for applications by retail individual investors through intermediaries, the existing process of physical movement of forms from intermediaries to Self-Certified Syndicate Banks (SCSBs) for blocking of funds will be discontinued and only the UPI mechanism with existing timeline of T+6 days will continue, for a period of 3 months or floating of 5 main board public issues, whichever is later.
- Phase III: Subsequently, final reduced timeline will be made effective using the UPI mechanism.

Up to what limit one can apply for a public issue in UPI? The limit for IPO application is 2 Lakhs per transaction on UPI.

Are all category of investors eligible to apply in public issues using UPI for payment?

No. Only retail individual investors are allowed to use UPI for payment in public issues. Qualified Institutional Buyers and High Net-worth Individuals shall continue to apply as per the existing process.

PART II: SECONDARY MARKET

INTRODUCTION

There are many recognized stock exchanges in India whereas only few stock exchanges are functional like National Stock Exchange & Bombay Stock Exchange. The stock exchanges are managed by Board of Directors or Council of Management consisting of elected brokers and representatives of Government and Public appointed by SEBI.

This market provides facilities of trading after listing of any securities. The Boards of stock exchanges are empowered to make and enforced rules, bye – laws and regulations with jurisdiction over all its members.

The stock exchange is a key institution which facilitates the issue & sale of various types of securities. It is a pivot around which every activity of capital market revolves. In the absence of the stock exchange, the people with savings would hardly invest in corporate securities for which there would be no liquidity.

Before understanding the entire concept of Stock Market, we have to understand the meaning of the following terms:

- (a) Stock Exchanges: A Market (a place of buying/selling) where any person can buy or sale any securities of a listed company.
- (b) <u>Listed Company</u>: A company whose securities (i. e. shares, debentures & bonds etc.) are registered (listed) for purpose of trading with any recognized stock exchange.
- (c) <u>Listing Agreement</u>: It is an agreement between a proposed listed company and the stock exchange before giving permission to company with regard to trading of securities. After execution of this agreement, the company shall be treated as listed company and under obligation to comply with requirement of the listing agreement.

STOCK EXCHANGE TRADING MECHANISM

Stock Exchange is a market place for buying and selling of listed securities. Securities are traded in three different ways in stock exchanges, namely (a) Settlement Basis, (b) Spot Basis, and (c) Cash Basis etc.

TYPES OF SECURITIES: Securities traded in the stock exchanges can be classified as under:-

- (i) <u>Listed cleared Securities</u>: These securities are admitted for trading on a stock exchange after fulfilment of all listing requirements and almost all types of listed securities are under this.
- (ii) <u>Permitted Securities</u>: These securities are listed on some of the recognized stock exchanges and when permitted to be traded by those stock exchanges where they are not listed is called permitted securities. In other words, to facilitate the market participants to trade in securities of such companies, which are actively traded at other stock exchanges but are not listed on another stock exchange, trading in such securities is facilitated as "Permitted Securities".

TYPES OF DELIVERY: Types of delivery in the stock exchanges are:

- (i) <u>Spot Delivery</u>: The delivery is said to be spot delivery, if the delivery and payment are to be made on the same day or next day.
- (ii) <u>Hand Delivery</u>: The delivery is said to be hand delivery, if the delivery and payment are to be made on the delivery date fixed by the stock exchange authorities.
- (iii) <u>Special Delivery</u>: A special delivery is one where the delivery is to be made after the delivery period fixed by the stock exchange authorities.

BASIC TERMINOLOGIES USED IN STOCK MARKETS

(a) SENSEX/ BASIS OF SENSEX

- SENSEX refers to "Sensitivity Index" which is associated with the stock market indices.
- An index is basically an indicator. It gives an idea about movement of stock market whether most of the securities have gone up or most of the securities have gone down listed in BSE.
- In India, SENSEX is popularly known as Index of Bombay Stock Exchange –the barometer of Indian Capital Market.
- Now, BSE SENSEX is also known as S & P BSE SENSEX. This S & P BSE SENSEX comprises of 30 companies.
- The SENSEX was 1st compiled in 1986, was calculated on a "Market Capitalization Weighted" methodology of 30 component stocks representing large, well established and financially sound companies across key sectors.
- Since September 1, 2003, S & P BSE SENSEX is being calculated on a free float market capitalization methodology.

Steps to calculate Sensex:

- The market capitalization is taken into account. This is done by multiplying all the shares issued by the company with the price of its stock.
- BSE determines a Free-float factor that is a multiple of the market capitalization of the company. This helps in determining the free-float market capitalization based on the details submitted by the company.
- Ratio and Proportion are used based on the base index of 100. This helps to determine the Sensex.

BSE On-Line Trading:

- ⇒ BOLT is the modern trading practice introduced by BSE.
- ⇒ Under this arrangement, trading can be carried out by member brokers and their authorized assistants from their workstations.
- ⇒ It provides for a search based trading mechanism whereby two way quotes are accepted from Jobbers and Market Makers and from brokers on the basis of orders received from investors.
- ⇒ The System matches them according to logic specified in BOLT.

(b) **NIFTY**:

• The NIFTY 50 is an index of National Stock Exchange of India. It gives an idea about movement of stock market whether most of the securities

- have gone up or most of the securities have gone down listed in NSE.
- The NIFTY 50 covers 22 sections of the Indian economy and offers investment managers exposure to the Indian market in one portfolio.
- The NIFTY 50 index is a free float market capitalization weighted index.
- The index was initially calculated on full market capitalization methodology. From June 26, 2009, the computation was changed to free float methodology.
- The base period for the CNX Nifty index is November 3, 1995, which marked the completion of one year of operations of National Stock Exchange Equity Market Segment.
- The base value of the index has been set at 1000.
- (c) <u>SETTLEMENT</u>: After you have bought or sold securities through your broker, the trade has to be settled. It means the buyer has to receive his shares and the seller has to receive his money. This process settles the claims of both parties, is known as settlement in connection with stock market.

In other words, settlement is just the process whereby payment is made by all those who have made purchases and shares are delivered by all those who have made sales. Presently, settlement period is T + 2 (previous it was T + 3) and T stands for Trading Day and 2 more trading days.

(d) TREND LINE:

- In case, the price of shares moves in a particular direction which persists for a longer period i. e. is known as Trend.
- When the movement is upward, the trend is called <u>BULLISH</u>.Bull market is a rising market with abundance of buyers and relatively few sellers.
- When the movement is downward it is called BEARISH.Bear market is a weak or falling market characterized by the dominance of sellers.
- Secondary movements that reverse the uptrend temporarily are known as Reactions.
- The movements that reverse the down trend temporarily are known as Rallies.
- When an uptrend breaks in the downward direction, it is called <u>Trend</u> <u>Reversal</u>.

MARGINS

"The amount of credit a broker or lender extends to a customer for purchase of securities is known as margin." It was introduced by SEBI to restrain speculative dealings in shares leading to volatility in the prices of securities.

INITIAL MARGIN: The minimum amount, calculated as a percentage of the transaction value, to be placed by the client, with the broker, before the actual purchase. The broker may take advance the balance amount to meet full settlement obligations. This amount is to be kept in the client accounts at the time of actual purchase.

An Initial Margin Requirement refers to the percentage of equity required when an investor opens a position.

Example: If an Investor has Rs.5,000 and would like to purchase equity shares of Reliance Industries Ltd. which has a 50% initial margin requirement, the amount of equity shares of Reliance Industries Ltd.

The Investor is eligible to buy on margin is calculated as follows:-Buying power 50% is less than or equal to Rs.5,000/-

- \rightarrow Buying power \rightarrow is less than or equal to Rs.5,000/50% = Rs.10,000/-
- >> The investor can purchase equity shares of Reliance Industries Ltd. up to Rs.10,000 using the margin buying power.

MAINTENANCE MARGIN: Minimum amount, calculated as a percentage of market value of the securities calculated with respect to last trading day's closing price, to be maintained by client with the broker. If the balance deposit in the client's margin account falls below the required maintenance margin, the broker shall promptly make margin calls. The broker may liquidate the securities if the client fails to meet the margin calls made by the broker.

Margin trading acts as a check on the tendency of clients to manipulate markets by placing orders on brokers without having adequate money or securities to backup the transaction. Margin trading also acts as a curb on short selling and short buying.

BOOK CLOSURE & RECORD DATE

Book Closure (Section 91 of the Companies Act, 2013) is the periodic closure of the Registrar of Members and Transfer Books of the company to take a record of the shareholders to determine their entitlement to dividends or to bonus or right shares or any other rights pertaining to shares. A company may close the register of members for a maximum of 45 days in a year and for not more than 30 days at any one time. The listed company should close their book at least once in a year.

The listed company should give notice of book closure in a newspaper at least 7 days before the commencement of the book closure. The members whose names appear in the register of members on the last date of book closure are entitled to receive the benefits of dividend, right shares or bonus shares, as the case may be.

<u>Record date (Clause 16 of the listing agreement)</u> is the date on which the records of a company are closed for the purpose of determining the stock holders to whom dividends, proxy's rights etc. are to be sent.

In case of fixation of record date, a company fixes a date for determining the corporate benefits like dividends rights, bonus shares rights and rights issue. The listed company should give notice or record date in a newspaper at least 7 days before the fixation of the record date.

BLOCK DEAL

The SEBI vide letter MRD/DoP/SE/Cir - 19/05 dated September 02, 2005 and CIR/MRD/DP/118/2017 dated October 26, 2017 guidelines outlining a facility of allowing Stock Exchanges to provide separate trading window to facilitate execution of large trades. The Exchanges have introduced new block window mechanism for the block trades from January 01, 2018.

Session Timings:

- a) <u>Morning Block Deal Window</u>: This window shall operate between 08:45 AM to 09:00 AM.
- b) <u>Afternoon Block Deal Window</u>: This window shall operate between 02:05 PM to 2:20 PM.
- In the block deal, the minimum order size for execution of trades in the Block deal window shall be **Rs.10 Crore**.
- The orders placed shall be within $\pm 1\%$ of the applicable reference price in the respective windows as stated above.
- The stock exchanges disseminates the information on block deals such as the name of the scrip, name of the client, quantity of shares bought/sold, traded price, etc to the general public on the same day, after the market hours.

BULK DEAL

Bulk deal is a trade, where total quantity bought or sold is more than 0.5% of the number of equity shares of a listed company.

Bulk deal can be transacted by the normal trading window provided by brokers throughout the trading hours in a day. Bulk deals are market driven and take place throughout the trading day.

The stock broker, who facilitates the trade, is required to reveal to the stock exchange about the bulk deals on a daily basis.

Bulk orders are visible to everyone. If the bulk deal happens through a single trade, it should be notified to the exchange immediately upon the execution of the order. If it happens through multiple trades, it should be notified to the exchange within one hour from the closure of the trading.

SETTLEMENT SYSTEM

Settlement means actual delivery/receipts of securities and payment of agreed amount. Settlement date is the date specified for delivery of securities between securities firms. It is necessary to make settlement to know net effect of series of transactions during given period. All transactions executed during settlement period are settled at the end of the settlement period.

It is necessary to settle all transactions of stock exchange because of risk of payment default and transfer of securities.

Settlement risk or principal risk is the risk that the seller of a security or funds delivers its obligation but does not receive payment or that the buyer of a security of funds makes payment but does not receive delivery. In Indian Stock Market, T + 2 settlements are prevailing.

WHAT IS ROLLING SETTLEMENT?

Rolling settlement is a system of settlement transaction in a fixed number of days after the date of Trade. Earlier rolling settlement was based on T + 3 and now it is T + 2 settlement system. T stands for trading day.

Note: For calculating settlement date, all intervening holidays shall be excluded like Sundays, Saturdays and stock exchange holidays.

Example: If trade of securities happened on Wednesday, then such transaction must be settled by Friday i. e. Wednesday and 2 more working days.

SETTLEMENT CYCLE FOR ROLLING SETTLEMENT

	Activity	Day
Trading	Rolling settlement	T (Trading day)
Clearing	Custodial confirmation and delivery generation	T + 1 working days
Settleme nt	Securities and funds pay – in and pay – out	T + 2 working days
Post settleme nt	Auction	T + 3 working days
	Bad delivery reporting	T + 4 working days
	Auction settlement	T + 5 working days
	Rectified bad delivery pay – in and pay – out	T + 6 working days
	Re – bad delivery reporting and pick up	T + 8 working days
	Close out of re – bad delivery and funds pay – in and pay – out	

WHAT IS PAY - IN AND PAY - OUT?

Pay – in day is the day when the sold securities are delivered to the stock exchange by the seller and funds for securities purchased are made available to the stock exchange by the buyers.

Pay – out day is the day when the purchased securities are delivered to the buyer and the funds for the securities sold are given to the seller. At present, the pay – in and pay – out happens on the $2^{\rm nd}$ working day after the trade is executed on the exchange, which is settlement cycle i. e. T + 2 rolling settlement.

FUNDS PAY - IN

Once the reconciliation of securities is completed by the Clearing House, the bank accounts of member – brokers maintained with the ten clearing banks are directly debited through computerized posting for their funds settlement obligations.

Once the pay – in of securities and funds is complete, the Clearing House arranges for the pay – out of securities and funds.

In case of those members, whose funds pay – in obligations are returned by their clearing banks on account of insufficient funds in their bank accounts at the time of pay – in, their BOLT TWSs are now immediately de – activated during the trading hours itself, on receipt of such intimation from the clearing banks as against the earlier practice of de – activating

their BOLT TWSs at the end of trading on that day. BOLT (BSE online terminal) TWSs of such members remain de – activated till the pay – in obligations are cleared by them.

SECURITIES PAY – OUT

In case of demat securities, the same are credited by the Clearing House in the Pool/Principal Accounts of the member – brokers. The Exchange has also provided a facility to the member – broker for transfer of pay – out securities directly to the client's beneficiary owner accounts without routing the same through their Pool/Principal accounts in NSDL/CDSL.

For this, the concerned member – brokers are required to give a client wise break up file which is uploaded by the member – brokers from their offices to the Clearing House. Based on the break up given by the member brokers, the Clearing House instructs depositories, viz., CDSL & NSDL to credit the securities to the Beneficiary Owners (BO) Accounts of the clients.

In case delivery of securities received from one depository is to be credited to an account in the other depository, the Clearing House does an inter depository transfer to give effect to such transfers.

In case of physical securities, the Receiving Members are required to collect the same from the Clearing House on the pay – out day. This process of passing on delivery of securities purchased by the member – brokers to them by the Clearing House is called pay – out of securities.

COMPLETE SETTLEMENT PROCESS

It is obligation on clearing corporation to settle all transactions between buyer and seller in T+2. Here, settlement means money in the account of seller and shares in the demat account of buyer within T+2.

WHAT IS NO - DELIVERY PERIOD?

Whenever a company announces a book closure and record date, the exchange sets up a no – delivery period for that security. During this period, only trading is permitted in the securities but no settlement.

It provides a market for trading in securities, debt and derivatives. It also resolves investor's grievances whether against the companies or its own member – broker. It also strives to educate and enlighten the investors by conducting investor education programmes and making available to them necessary information inputs.

TRADING AT BSE

- The scrips traded on BSE have been classified into 'A', 'B', 'T' and 'Z' groups on certain qualitative and quantitative parameters.
- F Group represents the Fixed Income Securities.
- T Group represents scrips which are settled on a trade to trade basis as a surveillance measure.
- Trading in Government Securities by the retail investors is done under the G group.
- Z group scrips include companies which have failed to comply with the

listing agreements and/or also failed to resolve investors compliant and/or have not made the required agreement with both depositories i. e. CDSL & NDSL for dematerialization of shares.

SURVEILLANCE

Market surveillance plays a vital role in ensuring market integrity which is the core objective of regulators. Market integrity is achieved through combination of surveillance, inspection, investigation and enforcement of relevant laws and rules.

Globally market surveillance is either conducted by the Regulators or Exchanges or both. In India, the primary responsibility of market surveillance has been entrusted to **Stock exchanges** and is being closely monitored by **SEBI**.

Millions of Orders are transmitted electronically every minute and therefore surveillance mechanisms to detect any irregularities must also be equally developed. Exchanges adopt automated surveillance tools that analyse trading patterns and are installed with a comprehensive alerts management system.

Market Surveillance is broadly categorised in 2 parts viz, Preventive Surveillance and Post trade Surveillance

A. PREVENTIVE SURVEILLANCE -

- <u>Stringent On boarding norms for Trading Members</u> Stringent net worth, back ground, viability etc. checks while on boarding Trading Members.
- <u>Index circuit filters</u> It brings coordinated trading halt in all equity and equity derivative markets at 3 stages of the index movement, either way viz., at 10%, 15% and 20% based on previous day closing index value.
- <u>Trade Execution Range</u> Orders are matched and trades take place only if the trade price is within the reference price and execution range.
- Order Value Limitation Maximum Order Value limit allowed per order.
- <u>Cancel on logout</u> All outstanding orders are cancelled, if the enabled user logs out.
- <u>Kill switch</u> All outstanding orders of that trading member are cancelled if trading member executes kill switch.
- <u>Risk reduction mode</u> Limits beyond which orders level risk management shall be initiated instead of trade level.
- <u>Compulsory close out</u> Incoming order, if it results in member crossing the margins available with the exchange, such order will be partially or fully cancelled, as the case may be, and further disallow the trading member to create fresh positions.
- <u>Capital adequacy check</u> Refers to monitoring of trading member's performance and track record, stringent margin requirements, position

limits based on capital, online monitoring of member positions and automatic disablement from trading when limits are breached

- <u>Fixed Price Band / Dynamic Price band</u> Limits applied within which securities shall move; so that volatility is curbed orderliness is bought about. For non-derivative securities price band is 5%, 10% & 20%. For Derivative products an operating range of 10% is set and subsequently flexed based on market conditions.
- <u>Trade for Trade Settlement</u> The settlement of scrip's available in this segment is done on a trade for trade basis and no netting off is allowed.
- <u>Periodic call auction</u> Shifting the security form continuous to call auction method
- <u>Rumour Verification</u> Any unannounced news about listed companies is tracked on online basis and letter seeking clarification is sent to the companies and the reply received is disseminated

B. POST TRADE SURVEILLANCE -

- <u>End of day alert</u> Alerts generated using statistical tools. The tool highlights stocks which have behaved abnormally form its past behaviour
- <u>Pattern recognition model</u> Models designed using high end tools and trading patterns which itself identifies suspects involving in unfair trading practise.
- <u>Transaction alerts for member</u> As part of surveillance obligation of members the alerts are downloaded to members under 14 different heads.

Preventive approach adapted by Exchange / SEBI has been fruitful. However, they are fully aware that the suite of measure in force have to be upgraded, expanded and added to be able to successful in this preventive approach.

SEBI has introduced various market surveillance measure like price band, circuit filter, trade for trade segment.

SURVEILLANCE ACTION:

(i) SPECIAL MARGINS:

Special margin may be imposed by BSE from time to time on certain Securities as a surveillance measure and informed to the Members through notices.

Special margins are imposed on stocks which witness abnormal movement in price or volume. It is a surveillance measure intended to check speculative activity in particular scrip. At the BSE, the margin is levied at 25% or 50%.

This largely depends on the sharpness in the movement of share price or volumes, client wise net outstanding purchase or sale position or on both sides.

(ii) CONCEPT OF CIRCUIT AND CIRCUIT BREAKERS:

Stock prices of companies listed on the stock exchanges are influenced by several factors like company financials, investor's perception of the company's growth, industry trends, government regulations and market speculation etc.

Some factors are predictable and can be studied and analyzed using statistical tools like graphs and techniques like ratio analysis, trend analysis, theory of probability etc. Certain other factors and their influence on prices of a particular stock of the market in general and the degree of their impact are completely unpredictable.

Since market sentiments cannot be predicted accurately and their impact on stock prices is difficult to judge, sometimes the movement of stock prices can beat all logic and move tremendously in any direction.

Circuit Breaker is a surveillance system to maintain the unnecessary volatility in the stock market. For example, the BSE Sensex moved up by 2110.79 points on May 18, 2009 after the Parliament's election results were announced. The trading had to be halted since the market became extremely volatile and moved beyond reasoning.

WHAT IS A CIRCUIT?

Circuits are of two types – circuit for an index and for a stock. So, if an index or the price of a stock increases or declines beyond a specified threshold it is said to have entered into a circuit. SEBI specifies this threshold as a percentage of the prior day's closing figures.

WHAT IS A CIRCUIT BREAKER?

Factors like market speculations force stock prices or indices to enter into a circuit. Such a condition is beyond the control of regulatory authorities. Hence they use the circuit breaker to curb such market situations. Circuit breaker, simply put, is a set of rules formed and issued by SEBI in order to bring back normalcy in the stock markets in the event an index or stock enters into a circuit. SEBI has different circuit breakers for indices and for stocks.

CIRCUIT BREAKER FOR AN INDEX

Circuit breakers are applied only on equity and equity derivative markets. Whenever the major stock indices like BSE Sensex and Nifty cross the threshold level, SEBI rules require that the trading at the stock exchange be stopped for a certain period of time beginning from half an hour to even an entire day. The idea is to allow the market to cool down and resume trading at normal levels. The following threshold limits are implemented at different stages:-

Movement in Indices	Time	Close period
10%	Before 1.00 pm	1 hour
	1.00 pm to 2.30 pm	½ hour
	After 2.30 pm	Does not close

15%	Before 1.00 pm	2 hour
	1.00 pm to 2.30 pm	1 hour
	After 2.30 pm	Close for the rest of the day
20%	Any time	Close for the rest of the day

CIRCUIT BREAKER FOR A STOCK

A price range for a stock to move without any interference from regulatory authorities. Only when the stock prices move beyond the range, it is considered as entering into a circuit and circuit breakers are applied. Daily price bands of 2%, 5% and 10% are applicable to different equity stocks. Price bands of 20% are applicable to all remaining scrip like preference shares or debentures.

Example: For a stock with a price band of 5% that closes at Rs.100 on the previous day, the price band will be between Rs.105 and Rs.95.

WHAT ARE AN UPPER CIRCUIT AND LOWER CIRCUIT?

Stock prices can either move up or down and hence circuit breakers are required for movements in both directions. An upward movement over the threshold will cause a stock to enter into an upper circuit. Similarly a downward movement in stock price beyond the threshold will cause a stock to enter into a lower circuit.

Reduction of Circuit Filters: The circuit filters are reduced in case of illiquid Securities or as a price containment measures. The circuit filters are reduced to 10% or 5% or 2%, as the case may be, based on the criteria decided by the Surveillance Department of the Stock Exchanges. No circuit filters are applicable on Securities on which derivative products are available.

(iii) **Trade to trade**: Trade – to – trade (T2T) or T segment on BSE is segment in which no intra – day trading is allowed. It means in this category, securities can only be bought on delivery basis. Transactions placed in this segment have to be mandatorily settled on gross basis i. e. by taking or giving delivery even if you have bought and sold the shares during the same settlement cycle.

Example: If you buy shares, you must pay the money and take delivery. If you sell shares, you must give the delivery of shares and you will get money.

If you buy today and sell today and don't have delivery, then the sell position will go into auction and you will have to pay heavy penalty.

- (iv) **Suspension of Scrip**: It is a method to stop the trading of shares of listed companies for temporary period for the violation of rules & regulations of Stock Exchanges.
- (v) Warning to Members (Broker): Stock exchanges may also take action against its members who are indulged in the activities of artificial speculation.'

(vi) Imposition of penalties/deactivation of terminals of members:

Rumor Verification: Steps Involved in Rumor Verification:

- (i) Surveillance Department liaises with Companies Officers of companies to obtain comments of the company on various price sensitive corporate news items appearing in the selected New Papers.
- (ii) Comments received from the companies are disseminated to the Market by way of BOLT Ticker and/or Notices in the Bulletin.
- (iii) Show cause notices are issued to companies which do not reply promptly to the Exchange.

Pro - active Measure:

The Department compiled and disseminated a list of companies who have changed their names to suggest that their business interest is in the software Industry.

Position Monitoring:

- (i) Statement of top 100 purchasers/dealers
- (ii) Concentrated Purchase/sales
- (iii) Purchases/sales of scrips having thin trading
- (iv) Pay in liabilities above a threshold limit
- (v) Verification of Institutional Trades
- (vi) Snap investigation
- (vii) Market intelligence

RISK MANAGEMENT IN SECONDARY MARKET

- The performance of secondary market has a vital bearing on the performance of primary market.
- A number of measures were taken to modernise the stock exchanges in the country. These measures focussed on infrastructure development, transparency, efficiency and enhanced investor protection. Risk management was further strengthened during the year by implementing a comprehensive system of margins, exposure limits and improving the efficiency of clearing and settlement systems through the introduction of settlement guarantee funds.
- With a view to enhancing market safety, SEBI fixed intra-day trading and gross exposure limits for brokers. SEBI continued to maintain a constant interface with the stock exchanges on various issues concerning investor protection, automated market infrastructure and overall improvement in quality of intermediation. SEBI also directed its efforts towards encouraging the stock exchanges to become effective as self-regulatory institutions.
- Automated screen based trading which was introduced in the country through the setting up of the OTCEI and NSE and subsequently introduced by the BSE had brought about a qualitative improvement in the market and its transparency.
- Transaction costs and time were also significantly reduced.
- During the year several of the smaller exchanges also introduced online screen based trading.
- The key risk management measures initiated by SEBI include:-

- ❖ Categorization of securities into groups 1, 2 and 3 for imposition of margins based on their liquidity and volatility.
- VaR based margining system.
- Specification of mark to Market margins.
- Specification of Intra-day trading limits and Gross Exposure Limits.
- ❖ Real time monitoring of the Intra-day trading limits and Gross Exposure Limits by the Stock Exchanges.
- Specification of time limits of payment of margins.
- Collection of margins on upfront basis.
- Index based market wide circuit breakers.
- ❖ Automatic de-activation of trading terminals in case of breach of exposure limits.
- ❖ VaR based margining system has been put in place based on the categorization of stocks based on the liquidity of stocks depending on its impact cost and volatility. It addresses 99% of the risks in the market.
- ❖ Additional margins have also been specified to address the balance 1% cases.
- ❖ Collection of margins from institutional clients on T+1 basis

UNIT 16: SECURITIES MARKET INTERMEDIARIES

INTRODUCTIO N

The Securities market intermediaries are an important link between investor, Issuer Company and the regulator. In other words, we cannot imagine any transaction in the capital market without Capital Market Intermediaries.

They simply connect an investor with the user of funds in pursuance of SEBI regulations. Market intermediaries help investors to select investments by providing investment consultancy, market analysis and credit rating of investment instruments.

The following are the Securities Market Intermediaries:-

- (a) Merchant Bankers (MB)
- (b) Registrars and Share Transfer Agents (RTA)
- (c) Underwriters
- (d) Bankers to issue
- (e) Debenture Trustees
- (f) Portfolio Manager
- (g) Foreign Institutional Investor (FII)
- (h) Stock brokers and sub brokers
- (i) Custodian
- (i) Investment Advisor
- (k) Credit Rating Agencies and Depository Participant

ROLE & FUNCTIONS OF SECURITIES MARKET INTERMEDIARIES (IN A PUBLIC ISSUE)

MERCHANT BANKER

Merchant Banker means:

- ⇒ A person who manages;
- ⇒ the business of issue of securities
- ⇒ by making arrangements for selling, buying or subscribing to securities.

It is **obligatory** on the part of Issuer Company to appoint a merchant banker in relation to any public issue like IPO, Right Issue, Buy Back & Delisting. A person who undertakes any assignment of merchant bankers shall first get it registered with SEBI under the provisions of SEBI (Merchant Banker) Regulations, 1992.

Under clause 2 (cb) of SEBI (Merchant Banker) Regulations, 1992, **Merchant Banker** means any person who is engaged in the business of **issue management** either by making arrangements regarding selling, buying or subscribing to securities or acting as manager, consultant, adviser or rendering corporate advisory service in relation to such issue management.

Example: SBI Capital Markets Ltd., ICICI Securities Ltd., Reliance Securities Ltd. and Karvy Investor Services Limited

The Merchant banker undertakes the following activities including preparation of prospectus, advisory on projects, determining financial structure, due diligence, tie – up with financiers, allotment of shares and refunds:-

- (a) Managing of public issue of securities;
